Here is a complete list of the

**MEN**

who have introduced Atlantic States Gas in this area

THIS is a list worth reading. These 59 men knew a great modern improvement when they saw it. Instead of seeking their fortunes far away, they stayed at home, and introduced modern rural gas cooking and heating to their grateful neighbors.

In their first year, these 59 men have arranged for the amazing total of 1901 installations of Atlantic States Gas, complete with safe, underground tanks and fine modern appliances.

I am proud to print these 59 names.
