KIDNEY REMOVAL OPERATION SUCCESSFUL ON LOCAL RESIDENT

Charles D. Bartholomew, a prominent Centre Hall citizen, is rapidly recovering from an operation by Surgeon Adams in the Centre County hospital, Wednesday of last week, in which a diseased left kidney was removed. The kidney proved to have a tumor hidden within it.

Up to Tuesday the patient was administered a series of hypodermic injections to counteract excruciating pains, but at that time he felt he could, and did, withstand the suffering when the "hypos" were omitted. Wednesday Mr. Bartholomew was able to sit up and ate heartily, considering the brief intervening time since the operation. His full recovery is anticipated.

The name of the Birmingham school located at Birmingham, Huntingdon county, has been changed to Grier school, the Grier family having owned and operated it through three generations, since October, 1857.

New "Alcatraz" to Be Built by General State Authority

Above is a birds-eye view of the proposed maximum security prison to be built by The General State Authority at the former military reservation at Mount Gretna in Lebanon County.

The central tower will be 672 ft. in diameter and within itself will house another prison of six cell blocks containing 592 single cells. The designers believe this penitentiary will be more difficult of escape than the Federal prison in San Francisco Bay. It is recalled that only one prisoner ever tried to escape from the latter and his death was entered in the records as "Suicide."

Two flanking towers 450 ft. in diameter will enclose the shops and parade grounds. These towers will rise sheer from grade 33 ft. at the lowest and 39 ft. at the highest point. An electrically charged, undimable tool-resistant wire mesh fence 12 ft. high will surround the towers, being 100 yards from the walls at the nearest point. Inside the fence there will be neither foliage or grass, the entire ground being covered with crushed blue limestone.

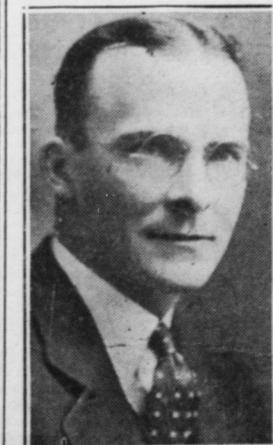

Photo electric cells and master locks will control the ingress and egress systems. As soon as a prisoner makes a move in the wrong direction the entire system of locks automatically seal and the warden himself, will be as securely held as any prisoner within the

"big house." Work is expected to begin on the new prison in February.

"Life Begins in College" starring the Ritz brothers, is a feature attraction at the Plaza Theatre, Bellefonte, Thursday and Friday of this week. If you'd enjoy an hour and a half of laughter of the side-splitting variety, don't fail to see "Life Begins in College."
