A COLLECTION OF NEWSY HAPPENINGS AND PERSONALS FROM GREGG TWP.'S METROPOLIS.

Mrs. Daniel Catherman Becomes 95
Mrs. Daniel Catherman of Hartleton, grandmother of Mrs. Myles Johnson, and well known in Penns Valley, attained her 95th year last Thursday. She spent the day quietly in her home. Mrs. Catherman and her son, William Catherman, whose wife is Belle M. Slack, live together in Hartleton since the death of the former's husband, four years ago.

Mrs. Catherman does her own house work with the help of her son. She is in good health; can see and hear well and gets around remarkably well for a woman ninety-five years of age.

Mrs. Catherman has seven children—Albert Catherman, of Millmont, R. D.; Curtin Catherman, of Hartleton; Wm. Catherman of Hartleton; Mrs. Peter Neff, of Millmont; Oliver C. Catherman, of Millmont, R. D.; Mrs. Clayton Hackenberg, of Millmont, R. D.; and Harry Catherman, of Hartleton. Also 9 grandchildren, 19 great grandchildren and one great-great-grandchild.

She had been confined to her home by illness in the early summer but now is able to go for automobile drives as before.

A wide circle of friends wish Mrs. Catherman many more happy birthday anniversaries.

Georges Valley About to Be Electrified—The thirteen residents in Georges Valley who signed contracts with West Penn Power company to become users of electric current furnished by that company, are becoming somewhat puzzled over the delayed moves in building the pole line and stringing the modern aluminum covered "trunk" line. The line extends along the Georges Valley road on the north side of the valley and is a continuation of a short spur from Spring Mills to the S. W. Heisey and Fisher farm line. Beginning at the western terminus of the line, the patrons who have signed contracts are: Chester Decker, D. W. Sweetwood, S. E. Goble, Charles Zettie, Nathaniel Zettie, J. W. Goble, J. W. Evans, R. E. Sweetwood, Jeremiah Zettie, Mrs. Carrie Cain, A. F. Vonada, William Bair, Ezra Harter.

An extension of this line contemplated crosses the valley at the Reed farm to the road on the south side of the valley and west on it to the Synagogue, church and Potters Mills by way of the former Sankey farm. Residents of Potters Mills are particularly anxious that this extension be made and it is believed that close to one hundred per cent of property owners would avail themselves of the opportunity to grab electric light and power.

With these extensions together with the Farmers Mills line and a number of shorter lines out from here already in service, this community will be well served.

Charged with Assault—At a hearing before Squire Fremant S. Hille, Pleasant Gap, Raymond Harpster, of State College, posted bond in the sum of \$500 for his appearance at the next term of court on a charge of assault and battery preferred by Robert Colpetzer, of Spring Mills, R. D. The case resulted from an argument in Harpster's office when Colpetzer is alleged to have tried to collect money which he claimed was due him for services in driving a truck for Harpster.

The injury sustained by Mrs. D. M. McCool, previously mentioned in this column as having become a patient in the Centre County hospital suffering from a fracture of a leg at the hip, resulted in the breaking up of her home temporarily. Miss Rae will live with her sister, Miss Lottie, in Millheim, and John and Randall McCool, grandchildren of Mrs. McCool, went to the home of their mother, Mrs. Samuel Springer, also in Millheim.

POPULAR MAKES OF Electric Ranges CAN NOW BE PURCHASED HERE

IN PAST TEN MONTHS NEARLY 200 ELECTRIC STORES, SENSING RAPID TREND TO THE EASY WAY OF COOKING, ENTER ELECTRIC RANGE BUSINESS

THE trend to electric cooking increases with astonishing momentum. During 1935, 123,000 electric ranges were installed in homes throughout the nation. Last year there were 318,000 more. This year there will be another 425,000.

In the territory served by West Penn the growth of electric cooking is even more rapid. Three times as many women as last year are turning to this clean, easy, "waterless" method! Low electric rates—West Penn's are among the very lowest in the United States—electric ranges that cook as fast as foods can cook, beautiful new models with added efficiency features, thousands of satisfied users—these factors have been largely responsible.

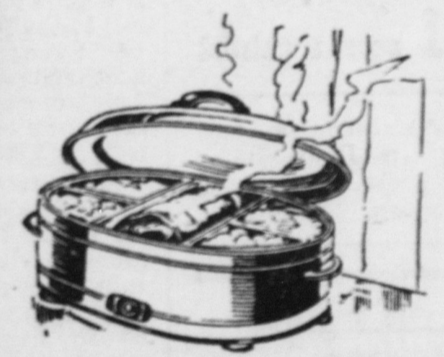

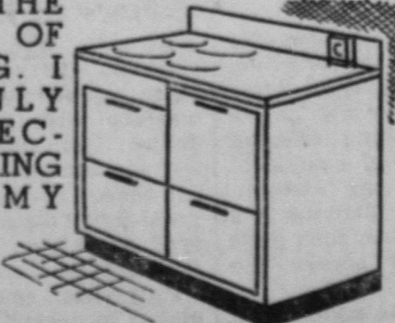

No wonder nearly 200 electric stores in the towns and communities served by West Penn have entered the electric range business, most of them since the first of the year! They recognize that the turn to electric cooking is here—and they are making available to you the very finest electric ranges manufactured.

"I NEVER REALIZED UNTIL I OWNED ONE THAT AN ELECTRIC RANGE HAD SO MANY ADVANTAGES. I FIND THAT ELECTRIC COOKERY IS AS ECONOMIC AS THE OLD WAY OF COOKING. I CERTAINLY TALK ELECTRIC COOKING TO ALL MY FRIENDS."

Users Do Wonderful Baking With Electric Roasters

IT may surprise you to know that you can bake wonderful pies, cakes, cookies, tarts and bread with an Electric Roaster—as delicious as any you have ever tasted. Electric roaster baking is very easy, too—far easier than baking with an ordinary stove. The heat is "controlled" you see—any temperature called for in the recipe is obtained by the mere turn of a dial. You needn't watch the baking, or test the product. You merely take it out of the roaster at the end of the specified baking period and it's done to perfection.

If you want to eliminate those occasional baking failures that happen because your present stove does not accurately measure the heat—get an electric roaster. It assures you of many economies, the finest bread, cakes and pastries every day—and when "company" comes!

YOUR ELECTRICITY IS CHEAPER THAN EVER NOW—ENJOY ITS BENEFITS—CHANGE TO ELECTRIC COOKING!
