Spring Mills Vocational Gains the County Soccer Title—Spring Mills Eastern Division representative, captured the Centre County soccer championship by defeating Hublersburg, 3-1, on the College golf course in the third game of their play-off series. Spring Mills took the first, 4-1, and Hublersburg the second, 2-1.

Coach John Decker's proteges thus qualify for the Central Pa. soccer tournament. Their division includes champions from York, Tioga, Bradford, Cambria and Centre counties. The winner from this division will meet the victor in the other section which includes seven or eight counties.

Three minutes after the opening whistle, Captain Ned Corman tallied for Hublersburg on a sensational long dribble from midfield. With two quick thrusts later in the same period Spring Mills went into the lead. A freshman, Donald Rossman, tallied on a long shot from the center of the field after receiving a pass from Snyder. Less than a minute later Joe Myers received the ball from Kennely and angled it into the net.

Play in the second quarter waged back and forth with neither team having a distinct advantage. Dean Spayd, Spring Mills "sub," ended the day's scoring when he netted the ball after taking a pass from Joe Myers with five minutes remaining to play in the third quarter.

Play was fast and furious in the final period with both teams threatening seriously on numerous occasions. Sensational goal tending by Dean Hettinger cut off two Hublersburg scoring opportunities.

Coach Decker loses two men by graduation next spring from his championship outfit. Co-captain Robert Meyer and Dean Hettinger will be the only ones missing when candidates respond to the first practice next fall.

Spring Mills had a well-balanced eleven with no one player standing above the rest but Capt. Corman was a brilliant performer for Hublersburg. The lineups:

RED CROSS OBSERVES NURSING ANNIVERSARY

1937 Marks 25th Year Of Public Health Nursing In Rural Areas

"Prior to inauguration of the Red Cross Town and Country nursing service in 1912, no national effort was made to bring nursing skill to the rural sickbed," James L. Fieser, vice chairman in charge of domestic operations for the American Red Cross, said today in commenting on the silver anniversary of Red Cross public health nursing.

In a plea for an increased membership during the coming Red Cross annual Roll Call held from November 11 to the 25th, Mr. Fieser pointed out that Red Cross rural nursing rounds out 25 years of continuous service this year. "It is essential activities such as this which the American people support through membership," he said.

In 1910 Lillian Wald, then head resident of the Henry Street Settlement in New York City, proposed that the American Red Cross pioneer in the field of rural nursing. Public health nurses were active in urban districts but no similar provision had been made to guard the health of the rural dweller. Miss Wald felt that the Red Cross was best qualified for the undertaking through its long experience in converting humanitarian ideals into practical accomplishment.

Two years later the first Red Cross rural nurse set forth upon her rounds in a county in Massachusetts. Jacob Schiff, member of the Red Cross Board of Incorporators, and Mrs. Whitelaw Reid each contributed funds to start the project. Special courses of training for nurses resulted in young women who thoroughly knew the mechanics of this new job.

By 1918 there were 100 rural nursing services conducted by Red Cross chapters; and 18 months later the number of services had skyrocketed to 2,000, as the signing of the Armistice released a flood of War nurses for peace-time duty.

"Reorganization and consolidation eventually cut the number of public health nurses serving under the Red Cross flag," Mr. Fieser stated. "But as a group their efficiency increased."

Mr. Fieser called attention to a study of Red Cross public health nursing accomplishments since the service was begun. "Statistics show that in all nearly 3,000 services were established by the Red Cross," he said. "During the past 15-years 6,509 public health nurses were assigned to chapters, and a total of 18,000,000 visits were made to or in behalf of patients."

"Each year during the past 11, more than 440,000 rural school children have been found to have physical defects. Each year 139,000 of these children were helped through treatment."

At the present time there are 666 Red Cross public health nurses engaged in health work in rural communities, and last year more than 1,000,000 visits were made on behalf of the sick.

"It has been our purpose from the first," Mr. Fieser emphasized, "to demonstrate that rural nursing was needed and could be organized. In many instances we have turned established community nursing services over to local health authorities. When this was done, we turned our effort toward opening up additional virgin territory."

Other Red Cross services supported by Roll Call memberships are life saving; first aid; disaster relief and the work of organized Red Cross volunteers.

Many Red Cross chapters carry on extensive civilian relief work. During the past year 120,000 needy families received this type of Red Cross help.

Under the new Game Law traps may not be set any closer than five feet of any holes, the idea being to save as many rabbits and other small game as possible. The Game Commission contends that the cubby set is not only more effective and successful in catching predators and other fur-bearing animals but lessens the chances a thousand to one of catching game. Above are two types of cubby sets; one the side walls of sticks covered with stone, and the other all stone. Some trappers like brush covers on top of stones or sticks. Cubby sets can be made in many ways and all traps are urged to use them.
