**FARM CALENDAR.**

Timely Reminders from  
Pennsylvania State College  
School of Agriculture

**Store Apples Properly**—Temperature, humidity, and ventilation requirements are all important in the keeping of apples in storage. Temperature generally is the most difficult of the three, especially during the early part of the season. Proper humidity keeps apples from wilting and fresh air is essential to good health of apples, say Penn State fruit specialists.

**Stop Flood Erosion**—Farm models can be used at meetings to show the destruction caused by soil erosion and how erosion can be controlled by strip cropping and filling gullies. Penn State agronomists say that farmers who see these models get a good idea of how to attack their own soil erosion problems.

**See Horse Pulling**—Twelve horses pulling contests in nine Pennsylvania counties were seen by more than 30,000 spectators this year. The spectators learned the value of training and good equipment in addition to the thrills experienced in watching the teams competing, report Penn State livestock specialists.

**Apples a Good Food**—The outstanding value of apples as food lie in the excellent bulk they give to the diet and their source of vitamin C. Since this vitamin often is lacking in the diet, Penn State nutritionists say that the use of apples to supply this vitamin is significant.

**New Pansy Available**—The Carnation Gold pansy is claimed to be the largest yellow variety. It attains a width of about three inches across. This is a new introduction from Holland, Penn State floriculturists report.

**Put Cows in Condition**—Cows freshening in good flesh and well fed during the lactation period will give enough extra milk to pay twice over for all extra feed needed to get them into good condition, say Penn State dairymen.

**THE SENIOR DANCE**  
PROVES A SUCCESS

The senior class of Centre Hall-Potter high school conquered the financial problem of the Washington trip last Friday night when 192 paying dancers assembled in the gymnasium of the high school to dance to the music of Bob Lyons' five-piece orchestra. During intermission and between dances the crowd increased to \$67.20 received in admissions to \$59.98 by purchasing sweets at the refreshment bar.

George Sweeney called off the square dances. The decorations in the gymnasium gave an exotic effect under colored lights with senior numerals flying dizzily along the roof.

Every nearby school was represented, especially the Spring Mills, Bellefonte and State College high schools.
