FIVE REPUBLICAN JUDGES

SINCE JUDGE ORVIS RETIRED

The elevation to the bench of Judge Walker is the first Democrat to have that honor since the retirement of the late Judge Ellis L. Orvis twenty-one years ago or on the first Monday in January, 1916. And in the twenty-two years five Republicans have worn the judicial toga. Henry C. Quigley, January 1916, to the latter part of November, 1924; Arthur C. Dale, from December, 1924, to January, 1926; the late Harry Keller from January, 1926 to his untimely death on March 2nd, 1927; and James C. Furst from March 1927 to the first Monday in January, 1928, when Judge Fleming took the oath of office.

The Farm Show at Harrisburg, which opens Monday and closes Saturday, will have a total of 10,700 exhibits, all under one of the largest roofs in the nation. Twenty-six farm organizations will hold conventions during "Farm Show Week."

Amusement Zone
Of New York Fair
Biggest in History

NEW YORK (Special).—An amusement zone designed to accommodate at one time the entire population of cities the size of Akron, Atlanta, Birmingham, Dallas, Denver or St. Paul will greet the millions of visitors to the New York World's Fair 1939. Grover A. Whalen, president of the Fair corporation, announces.

By far the largest entertainment structure ever constructed, it will contain enough shows, devices, restaurants, villages, shaded rest spots, secondary streets and plazas to handle more than 250,000 fun-seekers.

One huge theater-restaurant alone will have seats for 5,000. Another music auditorium will seat 2,500. An amphitheater to contain huge crowds will be built by the state of New York at a cost of \$1,500,000; erected at the head of one of the lakes it will be the scene of operas, aquatic exhibitions, pageants and other extravaganzas.

The visitor to the Fair will walk about two miles merely to pass through the amusement section which will be laid out in the form of an oval loop with no "dead end" streets.

The 230-acre tract will be divided into at least thirteen villages or zones and every concession will conform in design and atmosphere to the particular zone in which it is located.

An example will be the "Little Old New York" village, where the theater will be a replica of the famous old Park theater, the principal cafe will duplicate Steve Brodie's saloon and the attendants will dress in character. All architecture will be situated to that picturesque period. Admission to the zones will be free.

Religious Rights
Stressed at Fair

NEW YORK (Special).—A tribute to the constitutional right of freedom of worship will have a prominent part in the statuary to be placed upon the \$60,000,000 Central Mall of the New York World's Fair 1939. Grover A. Whalen, president of the Fair corporation, announces.

Part of a group known as "The Four Freedoms," the statue will depict a chaste, young girl, her face raised to the skies, holding a prayerbook in her hands. On the base of the statue, a number of churches of various denominations will signify that freedom of religion in this country is not confined to any one sect or creed.

Mall Structures
At New York Fair
To Break Records

NEW YORK (Special).—Not only will the New York World's Fair 1939 be the largest exposition in history, but it will have the most luxurious Central Mall ever designed, a mile-long walk to cost \$50,000,000. Grover A. Whalen, president of the Fair corporation, announces.

And, not only will the Mall be the most magnificent ever laid out, but it will contain a number of other "largests"—structures and works of art that have never been surpassed for size or elegance, he added.

In addition to the Tylon, tallest triangular spire ever raised, and the Perisphere, largest ball ever made by mankind, the Mall will form a setting for the largest portrait statue fashioned since the Egyptians hewed the likeness of Rameses II from rock in the land of the Nile. It will portray George Washington as he arrived for his inauguration exactly 150 years previous to the opening day of the Fair. It will be 65 feet tall and its mass will be more than 500 times that of an average six-foot man.

The tallest sundial ever erected, supported by a life-size tree sculptured by

the celebrated Paul Manship, will actually tell time for Fair visitors, for the numerals denoting the hours of the day will be set in a huge, circular plot where the sundial's shadow will fall from 50 feet above.

More than a million plants and a thousand trees will be used in landscaping the Mall.
