New York Fair To Honor Press

NEW YORK (Special)—To remind millions of visitors to the New York World's Fair 1939, the freedom of the press has helped preserve the democratic form of our government, a statue dedicated to that constitutional liberty will be erected on the \$60,000,000 Central Mall, Grover A. Whalen, president of the Fair corporation, announces.

The statue will depict a partially nude woman, representing "the unadorned truth," watching the passing show of world events and recording history day-by-day. A tribute to the moral standard of the press as a whole is contained in the subordinate figure of a child reading a newspaper.

Freedom of religion, speech and assembly will be combined with freedom of press to suggest that these four factors are the cornerstone of democratic government.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Select Gladioli—Now is the time to make a selection of gladioli corms, say floriculturists of the Penna. State College. Include some of the newer varieties. Corms should be planted at 2-week intervals over 3 to 10 weeks to insure continuous bloom. Planting may begin the middle of April in southeastern Pennsylvania and a week or two later in the colder sections.

Chorus Number Chosen—"Beautiful Dreamer" will be the required number in the State Rural Chorus Festival at the Pennsylvania State College Farmers' Field Day, Thursday, June 9. The number is by Stephen Foster, one of the many native composers Pennsylvania has produced.

Weeds Taint Milk—All pastures should be free of such weeds as garlic, ragweed, wild onion, bitterweed and others. When dairy cows eat these weeds, their milk usually becomes unfit for human consumption, dairy specialists of the Penna. State College declare. A good thick turf will help to keep the weeds down.

Phosphorus Is Valuable—Phosphoric acid doubtless is responsible for most and very often all of the effects of fertilizer applications since practically all soils are deficient in available phosphorus, say Penn State agronomists.

Get Termite Circular—"Termite Control for Pennsylvania" is a popular circular on the subject available at your county agricultural extension office, or from the Agricultural Mailing Room, State College, Pa.

At one of the largest farm sales held in Centre county in recent years, Howard Walker of near Rebersburg sold his stock and personal property for more than \$7,700. It is reported, Mr. Walker sold 40 head of cattle at an average of \$90 a head, according to persons attending the sale. The Walker family will move from their farm to Rebersburg where they will make their future home.
