KEEP GINGERY IN CONGRESS

The voters of this Congressional district in 1934 and again in 1936 elected Don Gingery to represent them in Congress. They have a pardonable pride in their selection, as evidenced by his record in all social, humane, labor, farm, veteran (including soldiers' bonus) and other beneficial legislation for the District.

He has consistently followed that great humanitarian, President Roosevelt, in his endeavor to make this nation and this district a better place in which to live and work, and play. Congressman Gingery did not go to Washington a stranger to the duties and responsibilities of a legislator. He had previously served in the Pennsylvania State Assembly, and the experience thus acquired has been helpful to him as a member of Congress.

He realized the absolute necessity of providing employment for those able to work, and actively supported and voted for appropriations of Federal funds for useful work projects. To date, this District has benefited by this legislation, through the excellent cooperation and untiring efforts of Congressman Gingery, in procuring speedy approval of these projects, in the sum of approximately \$23,000,000. This provided direct work for about 50,000 men, women and youths, and meant the construction of new schools, athletic fields, roads, bridges, streets, airports, etc., that were much needed. In addition to this, Congressman Gingery assisted in procuring an allotment of \$5,000,000 for the building program at Pennsylvania State College, a grant of \$218,468 for building an armory at Altoona, and \$96,000 for the erection of an armory in Clearfield. All are permanent improvements, secured at comparatively no expense to the taxpayers of this district.

Mr. Gingery, now serving his second term in Congress, has always had a liberal and progressive viewpoint. He has consistently supported legislation providing for old age pensions, unemployment insurance, aid to the blind, mothers' assistance, child welfare, collective bargaining under the Wagner Labor Relations Act, Railroad Retirement Act, restoration of Spanish-American War Veterans' pensions, pensions to widows, orphans, dependents of veterans, adequate hospital facilities for veterans, Home Owners' Loan, Guffey Coal Act, a permanent CCC Corps, ownership of farm homes, and Rural Electrification.

Congressman Gingery is a member of three important committees: Mines and Mining, Insular Affairs, Expenditures in the Executive Departments. Congressman Gingery has no outside interests or business connections, devoting his entire time to legislative duties, and renders prompt, personal service to the people of his Congressional District.

He has made good as our Representative. We know he should be kept in Congress. Our reason is aptly expressed in the words of the Hon. Clark Speaker of the House of Representatives during the Administration of Woodrow Wilson: "It is an unwise performance for any district to change Representatives at short intervals. A new Congressman must begin at the foot of the class and spell up. The best rule it seems to me, is for the District to select a man with at least fair capacity, industrious and honest, energetic, sober and courageous, and keep him there as long as he discharges his duties faithfully and well. Such a man will gradually rise to high position and influence in the House."

Only a man who sincerely wants to help people can rid this state of Washington domination and crackpot ideas. James is the only REAL Republican running for the nomination for Governor. Take all the others—individually and collectively—the other 'Republican'—or the flock of Democrats—they're all tarred and feathered with New Dealism.
