SOUTHERN WAGES.

[Editorial, Williamsport Sun] With the revival in Congress of the wage and hour bill, with prospects of a vote on it before adjournment, The Texas Weekly reopens its attack upon the measure as a threat to the industrial development of the South.

In its latest issue it says: "The purchasing power of the people of the South is so far below that of other sections and even the average for the country as a whole, that it is obviously the region where there is greatest possibility of increasing purchasing power and thus of creating new markets for goods of all kinds. In 1929 the retail sales of all kinds in the United States amounted to approximately \$49,000,000,000, of which only \$8,500,000,000 was in thirteen Southern states. Those states contained 27.5 per cent of the population of the country but their share of the retail purchases was slightly less than 17.5 per cent of the total for the country. In 1935 retail sales of all kinds amounted to approximately \$33,000,000,000, of which only a little more than \$5,500,000,000 was in the South. The percentage of sales in the South in 1935 was 16.9 per cent and meantime the percentage of the population, as estimated by the Bureau of Census, had increased to 27.9 per cent. Retail sales in the South in 1929 were equivalent to \$253 per capita, as compared with \$455 per capita in the rest of the country. In 1935 retail sales in the South were equivalent to \$157 per capita, as compared with \$309 per capita in the rest of the country."

"This is not due to low wages," says the Weekly. "On the contrary, low wages are a part of this general condition."

Not due to low wages? How not? A southern community, seeking to interest a Williamsport factory in choosing it as a new location, states that the prevailing wage in its area is 15 cents an hour. It is self-evident that the recipient of such low wage possesses a restricted purchasing power. Such a wage, for a 40-hour week, would bring but \$6 in a pay envelope. For a 60-hour week, the pay would be but \$9. Such a pay would be inadequate for the barest necessities of life.

The South may look upon low wages as an advantage in that they extend an invitation to certain types of industry to move from other sections of the country but there is no real advantage in a system which keeps a large element of the population in such poverty that it possesses no real purchasing power.

Have You a Favorite Cake Recipe?—Send It In It May Win Cash Prize

WHEN you decide to give your family a real treat and you bake one of those luscious, tempting chocolate cakes, or it may be a delectable marble cake or a delicious devil's food cake, made from your favorite recipe, and the folk all reach for a second, or perhaps a third, helping—now isn't that gratifying! How amply rewarded you feel by the remarks of appreciation going around the festive board such as "Oh, boy, what a cake!" from little Willie, said with a mouthful, to "I must have another piece if I burst!" from Dad.

But here!—you may have still further reward coming to you. The very recipe that the family makes so much over may be the one to take the first prize of \$25, or one of the five second prizes of \$10, or one of the ten third prizes of \$5 in the Cake Recipe Contest. And why not?

C. Houston Goudiss, noted food authority, who for 30 years has exercised a wide influence on the food habits of this nation through his lectures and books, and who at present conducts the food department in this newspaper known as "What to Eat and Why," is conducting a cake recipe contest with cash prizes to be given to persons submitting the best recipes. Your recipe will be judged on the basis of its nutritional and wholesome value. It need not be a marvelous creation for the eye to behold. The judges of this contest may agree with your family that your favorite recipe IS THE BEST! For further particulars see the announcement elsewhere in this issue of this newspaper. There is nothing to buy. No letter to write. Just send in your favorite cake recipe. It may win a prize.
