

### Spring Mills

A COLLECTION OF NEWSY HAPPENINGS AND PERSONALS FROM GREGG TWP.'S METROPOLIS.

**Barge Named for Spring Mills Native**—Of local interest is an item appearing in the Philadelphia Inquirer relative to the construction of two all-steel coke barges at the shipyards at Wilmington, Del. These barges, the largest ever to be constructed, were built for Cleary Bros., Inc., of New York, one of them being named for Bruce S. Gramley, born and reared at Spring Mills, a son of Mr. and Mrs. T. M. Gramley, of Millheim. The barge itself was christened with champagne by Mrs. Bruce S. Gramley, Mr. Gramley, incidentally, is purchasing agent for the Long Island Lighting Co., who purchase their coke through the Cleary Bros., which gives the connection in which Mr. Gramley's name is used in christening one of the steel barges.

### Just Another Day in New York

NEW YORK—It is a dull day when New York does not have some sort of a parade. Pictured above is scene at 23rd Street and Broadway during Motorcade and Preview of the New York World's Fair 1939. In the background is the tower of the Empire State Building. All floats in this parade were on wheels. The procession ended in the fair grounds where half a million people were assembled.

On Many Application Forms for Employment  
IS THIS QUESTION:  
**Do You SAVE MONEY?**  
Importance of this question to the employer is that if you have not learned to manage your own affairs, it is not likely you will be wanted to manage his.  
It seems to be the feeling of all employers that if a man cannot save for himself, it is hardly probable he can save for them.

"THIS BOWL PREVENTS HARMFUL GLARE!"

### I. E. S.\* Lamps Built to Protect Your Eyesight

THE white "bowl" of an I. E. S. lamp is one of the greatest improvements that has ever been made in portable lamps.  
For that bowl diffuses the light—spreads it around evenly in all directions—so that there are no shadows of any kind to hamper you in seeing easily. In addition, the diffusing bowl cuts down irritating glare by "hiding" the bulb. Even the shade helps to make better light, for it has a reflector lining.

The best lamp buys today are I. E. S. lamps. Look them over in the dealers' stores—you'll agree that they not only give the best light but are also more beautifully styled than any lamps you ever saw.

\*I. E. S.—Abbreviation for Illuminating Engineering Society, the non-profit organization that developed this lamp to provide better light for better sight.

Look FOR THE I. E. S. TAGS

DON'T be satisfied with a lamp that merely resembles an I. E. S. lamp. If there's an I. E. S. tag on the base, and another on the shade, then you KNOW it's an I. E. S. lamp.
