PACIFIC FIR GOES TO NEW YORK FAIR

NEW YORK (Special).--"Good old Douglas fir" from the Pacific Northwest will provide the foundations for the most spectacular of wonders at the New York World's Fair of 1939.

This was learned when the Fair Corporation offices in the Empire State building announced the purchase of more than \$100,000 worth of fir plings from the National Pole Treating Company. This particular lot of fir sticks will be driven into the ash fill of the 121 1/2-acre exposition site to guarantee the support of the two unique structures forming the Theme Centre of the "Nation's Fair." These are the 200-foot Perisphere, a globe seemingly supported on the waters of fountains, and the Trylon, a 700-foot triangular needle or beacon and broadcasting tower.

Shipments of the 1200 sticks, 95 to 99 feet in length, are taking place this month, after creosote treatment has been accorded them either at the National Pole and Treating Company's plant at Hilliard, Washington, or at the Minneapolis yard.

This is the Fair's second purchase of fir from Northwest sources. An order for 770 sticks of similar length was filled early this year from Oregon cuttings. This earlier shipment of pling supports the Fair's \$900,000 Administration Building already erected on the grounds.

TRAGEDY IN UNION COUNTY

Ernest Boob, 31, of Mifflinburg, R. D., accompanied by his two daughters, Alvaretta, 8, and Roseta, 9, figured in a swift moving tragedy along the L. & T. tracks just east of Swengle, recently, with the result that Mr. Boob lost his life and his daughters were seriously injured. The car in which they were riding was struck by the early train on the branch, hurling the girls clear of the wreckage and throwing Mr. Boob under the wheels of the locomotive. His right arm was cut off at the shoulder, the left hand was severed, and the top of his head was sheared off by the big flanged wheels.

The concession at Halfway Park, 14-Mile Narrows, has been awarded to George Emery of Mifflinburg, R. D. Life guards will be placed on duty for the protection of bathers in the large dam built by the CCC.

IS THIS QUESTION:
Do You SAVE MONEY?

Importance of this question to the employer is that if you have not learned to manage your own affairs, it is not likely you will be wanted to manage his. It seems to be the feeling of all employers that if a man cannot save for himself, it is hardly probable he can save for them.
