STRANGE SUPERSTITIONS

By Edwin Finch

IN SOME OF THE MINING SECTIONS OF OUR COUNTRY IT IS BELIEVED THAT IF A WOMAN VISITS THE MINES THERE WILL BE AN ACCIDENT TO THE MINERS.

A CRICKET IN THE HOUSE MEANS LUCK TO SOME BUT TO OTHERS THE CHIRPING OF A CRICKET ON THE HEARTH FORETELLS DEATH

THERE IS A GENERAL SUPERSTITION THAT WHISTLING AT SEA WILL CAUSE A STORM BUT THE SERMAN SAILOR BELIEVES THAT IF HE HOLDS TO THE MAST WHILE WHISTLING IT WILL BRING ONLY A LIGHT BREEZE.

Will Rogers' Humorous Story

By WILL ROGERS

NOW there's one argument I don't want to get into. That's about women's clothes, and whether they ought to wear more or less

of them. If a guy has got any sense he won't argue about what women ought to wear.

But there was one woman that had sad news to tell her husband. She said, "The doctor says I've got to go South to safeguard my health. Havana, or some place like that. Yes, I know it will cost a lot of money. The question is whether you would rather have me or a thousand dollars. Of course, if you want to hang on to the thous, just to have it in case the undertaker should want it, why all right. But the doctor says I go South."

So the poor man, all puzzled and worried, met the family doctor next day at the club, and they had a talk and a little drink of something to help the talk along. "Did you tell my wife that she's got to go South for her health?" "Yes, I'm sorry to say. Either go South, I told her, or put on more clothes. And of course she never considered the latter notion. I reckon you'll have to send her to Havana."
