**A STATEMENT BY SENATOR SCARLETT**

In a statement to the press a few days ago, Senator George B. Scarlett, leader of the Chester County Republican organization, expressed the opinion that the present campaign has resolved itself into a battle between Philadelphia and the rest of the State, with Philadelphia determined to have subsidies from Harrisburg to offset the heavy tax burden saddled upon it by bad management of its municipal government.

Senator Scarlett pointed out that it is quite obvious that the interest that is being shown in the candidacy of Judge James by Joseph Pew, wealthy oil man, is purely a selfish one in that the enormous amounts he is spending to capture this election would be returned to him in lowered taxes as soon as the state resources are tapped.

In his statement, Senator Scarlett pointed out that Gifford Pinchot has stated that he will be absolutely fair to Philadelphia and will favor that city in every proper way consistent with their own efforts to work out the city's financial salvation by instituting much needed municipal reforms. He has stated, however, that the rest of the State cannot and will not be penalized or taxed to make up for the loose government now in force in Philadelphia.

On the other hand Scarlett pointed out, election banners in Philadelphia state that James is for Philadelphia, but forget to mention that he is for that city at the expense of all the taxpayers from the City Line to the Ohio boundary.

It is Senator Scarlett's opinion that ex-Senator Wm. H. Clark, in reading up the so-called Independents and Young Republicans in Chester county, is being used by Joseph R. Grundy to work against the best interests of Chester county and its citizens. Gifford Pinchot, during his previous administrations, clearly demonstrated the favorable consideration this county may expect from him, and Scarlett pointed out that the pledges made by Pinchot's opponents to Philadelphia and its wealthy leaders can only be fulfilled at the expense of the rest of Pennsylvania. "It is quite apparent," said Scarlett, "that the mess in Philadelphia is of its own making, and when compared with conditions in Pittsburgh, where good government is in force and where Pinchot is leading by an enormous majority, it is all the more evident that the bid for James in Philadelphia is dictated by Pew and Grundy in their own selfish interests, and is made without thought of the voters outside that city."

Senator Scarlett stated that he bitterly opposed legislation in the last session of the Legislature, which was designed to unload the Philadelphia debt on the balance of the State and at the expense of every taxpayer in the rural districts. "That much legislation, sponsored by a controlled Governor, is again Philadelphia's goal is apparent to all," said Scarlett, "and will continue to have the opposition of the rural taxpayer."

Senator Scarlett expressed the opinion that the voters in Chester county will not be fooled by the malicious propaganda put out by James' personal organ, the Philadelphia Inquirer, and will realize that it has been dictated by "Moe" Annenberg's pledge of co-operation with Pew and Grundy. He further stated that a large major-

He also operated a hotel in Bellefonte for a number of years. Funeral services were held at the J. T. Storch home in State College on Saturday afternoon with the Rev. **REPUBLICANS HAVE MARGIN OF 160,000 IN THE STATE**

Practically complete registration figures give Republicans a majority of 159,156 over the Democrats, out of a total of 4,650,999 eligible to vote. Democrats registered are 2,215,937; Republicans, 2,375,093. The Republican lead is the smallest in many years.

In twenty-three counties Democrats lead. These are Allegheny, Berks, Cambria, Clarion, Clearfield, Columbia, Elk, Erie, Fayette, Fulton, Greene, Lackawanna, Lehigh, Luzerne, Monroe, Montour, Northampton, Northumberland, Pike, Washington, Westmoreland and York.

The remainder of the sixty-seven counties register a majority for Republicans. Earle, for Governor four years ago, carried the state by a majority of 600,000, when the Republican registration majority was approximately four times as large.

(Continued from previous column) Ity for Pinchot in Chester county will naturally place this county in a fine position to receive favorable consideration from the administration at Harrisburg.

Scarlett predicted that Pinchot will carry this county by an impressive majority as an expression by the voters that they want unbossed leadership in Chester county, as well as throughout Pennsylvania.

**LAST MINUTE REPUBLICAN CAMPAIGN PROPAGANDA CALCULATED TO FRIGHTEN**

As a last hour campaign document, the Republican party is planning to send voters a scare statement of the indebtedness created by the Roosevelt New Deal. The fact that the statement is being held off until the last minutes before the November 8 election is in itself an acknowledgment of its shady character.

The statements in the forthcoming campaign document, advance copies of which have been seen and studied, do not present the truth as to the indebtedness of the nation than did the radio presentation of H. G. Wells' "War of the World" represent realities last Sunday evening.

The calculations in the pamphlet you are likely to receive, can be best understood if you compare it to a note for a certain sum without taking account of the payments that may be found on the back of it.

U. S. Bonds, with interest rates at 2 1-2 to 4 1-2 per cent are selling at a margin today of from \$2.00 to \$18.28 per hundred dollars. The margin is much higher than that of any other country for bonds bearing the same rate of interest.

The United States Government at the present time has the highest credit standing of any nation in the world. For about four years, beginning in 1919, the taxpayers had to put up approximately one billion dollars a year to pay interest on the Federal debt. During the fiscal year 1924 this interest burden was shaved down to 940 million dollars. Mr. Coolidge and Mr. Mellon were reigning in Washington and nobody was complaining of the Federal debt burden. During the fiscal year 1938 the total interest charge on the Federal debt amounted to 926 million. So the great Roosevelt debt, about which we have heard so much lamentation during the past five years has not yet put as heavy a burden on the taxpayers as they were bearing for the five years beginning with 1919.

From 1923 to 1929 private debts increased 40 billion dollars. Today private debts are actually 12 billion dollars less than in 1930. Total debts in the United States today are six billion dollars less than in 1930.

The Republican last-minute campaign document with its array of figures is intended to create a scare. The party knows it is licked on issues and now resorts to methods used on children—frighten business, frighten the voters.

Timely Reminders from The Pennsylvania State College

**Take Care of Lawn**—Several inches growth of grass helps to protect the lawn during the winter. Deeper rooting and better turf next spring will be the result, say Penn State agronomists. They say that ground limestone may be applied this fall where needed.

**New Record Made**—Pennsylvania has a new ton litter record, 4159 lbs., achieved by 18 pigs grown by a Huntingdon county farmer. This exceeds by 170 pounds the former record held by a Susquehanna county farmer, Penn State livestock specialists report.

**Club Members on Radio**—Seven Pennsylvania radio stations will carry Achievement Day programs broadcast by 4-H club members from 12 counties. The broadcasts will be part of a nation-wide program on the air 12:30 to 1:30 p. m., Saturday, November 5.

**Feed Calves Carefully**—Overfeeding calves which have learned to drink is more injurious than underfeeding during the first two weeks. Penn State dairy specialists recommend a quart of milk three times a day the first week and 2 to 2 1-2 quarts twice a day the second week.

**Lime Poor Pastures**—Lime is needed for satisfactory improvement of poor pasture soils. Testing the soil will show how much lime is required, say Penn State agronomists. If the requirement is heavy, a ton to the acre may be applied at first and more later.

**Control Cannibalism**—Feeding liberal quantities of oats has helped to overcome cannibalism in some poultry flocks, report Penn State poultry specialists.

**PINCHOT FOLLOWERS**  
**United for JAMES**

The 450,000 Pinchot followers in Pennsylvania have universally repudiated the former Governor's attitude in the present campaign.

Thirty-two central and western counties represented at Pittsburgh on Monday, October 1, 1938, by active Pinchot workers enthusiastically endorsed the entire Republican ticket and pledged redoubled efforts for its success.

Let no Pinchot adherent be deceived by Democratic propaganda. The aim is to "clean up the mess at Harrisburg."

**DON GINGERY**

**To Men and Women Over 60**

(This statement is published at the request of hundreds of Members of the Townsend Clubs in the 23rd Congressional District who realize that they must look to President Roosevelt and his supporters of progressive social and humane legislation to secure enactment of an adequate old age pension.)

You are asked to look at Don Gingery's record on Old Age Pensions, and to consider PERFORMANCE versus PROMISES.

You will find that Don Gingery's public record discloses—

That he has consistently worked for a pension of from \$50 to \$70 a month for every man and woman reaching 60—based upon right, payable in U. S. currency—rather than script—payable each month, in a DEFINITE amount;

That he has kept every promise made in 1934 and again in 1936, to support the President and the Democratic platform;

That he was one of the first to sign the petition to bring the Townsend bill (HR4199) out of Committee for open debate and consideration in Congress;

That because of his convictions that the Townsend Plan was entitled to a fair hearing, he was appointed a Member of the Steering Committee to secure sufficient signers to bring the bill (HR4199) out of Committee;

That he voted AGAINST the appropriation of \$50,000 to investigate Dr. Townsend.

You are asked to consider the fact that his opponent promises to do, if elected, ONLY WHAT DON GINGERY HAS ALREADY DONE; he promises to "sign the petition to bring the Townsend Bill before Congress for consideration."

He promises that—NOTHING MORE.

You will find that Don Gingery's public record shows that he has worked for all labor, social and humane legislation, that he has consistently kept his promise to follow the lead of President Roosevelt in his program to provide security for ALL of the American people.

**YOU ARE ASKED TO WEIGH DON GINGERY'S PERFORMANCE AGAINST HIS OPPONENT'S PROMISES—AND REGISTER YOUR DECISION ON NOVEMBER 8.**
