### KINDS OF FOOD

She—How can any one exist without music—such food for the mind. He—Fish are better for that.

### Sh-h!

Here is Vienna's latest joke: One Viennese to another: "How are you, old chap?" "Marvelous, thanks." "It's quite all right, we are not on the telephone, you can tell me the truth."

### Couldn't Miss It

"Is it true you are marrying Sandy's widow, Jock? Why, she's 30 years older than you." "Aye, Ah ken, but Sandy's claes fit me like a glove."

### ALL EXPLAINED

"I was told that coat was a present from your ex-husband." "No—from my nex-husband."

## TIPS to Gardeners

### Care in Transplanting

TRANSPLANTING is an important activity in almost every garden, but a gardener will save time and possible disappointment if he knows what should and what should not be transplanted.

The following should not be moved: Celosia, didiscus (blue lace flower), four o'clock, hunnermania, and perennial sweet pea. Because of their peculiar root growth, these flowers are damaged, sometimes even killed, when transplanted.

Flowers which may be transplanted with little fear of damage, as long as the moving is done properly, include ageratum, alysum, snapdragon, aster, calendula, marigold, pansy, petunia, pinks, salvia, scabiosa, verbena, Canterbury bells, columbine, hollyhock, pyrethrum and viola.

There is a third division of flowers, according to Harry A. Joy, flower expert of the Ferry Seed Breeding Station, whose lives will not be endangered by transplanting, but whose growth will be stunted. Both plant and blossoms will be smaller but earlier. Larkspur, zinnia, phlox, nasturtium and bachelor button are in this group.

### CURE FOR UNEMPLOYMENT

"THE only way to restore prosperity in the United States is to cure as far as possible the evil of unemployment. This can only be done by speeding up private agriculture, commerce and industry, to employ more people. Existing industry must be encouraged to expand. Individuals must be encouraged to spend their own time and their own money in developing new enterprises and new products."—U. S. Senator Robert A. Taft.

## ASK ME ANOTHER

A Quiz With Answers Offering Information on Various Subjects

### The Questions

1. What is the speed of lightning?
2. What two European contemporary kings are brothers?
3. How did Wall street, New York, get its name?
4. Are American vessels permitted to enter the Colorado river at its mouth in Mexican territory?
5. What is the source of the quotation, "Patriotism is the last refuge of a scoundrel"?
6. Why is a certain plant called Job's tears?
7. What is a pourparler?
8. What is the origin of the word etiquette?
9. What is an archer fish?

### The Answers

1. The speed of lightning was measured at the Empire State building in New York at 10,000 miles a second.
2. King Christian X of Denmark and King Haakon VII of Norway are brothers.
3. From the fact that it follows the line of the palisaded wall or stockade which was built in 1652 across the southern end of Manhattan island.
4. Yes. En route they merely report to the captain of the port of Guaymas, Sonora.
5. It is from Boswell's "Life of Johnson."
6. Its name is derived from the hard, shining tearlike seeds which resemble bluish white porcelain and are used in making bracelets, necklaces and rosaries.
7. It is an informal, preliminary

conference of representatives of different groups, factions, or countries, looking to a formal agreement settling disputed questions among the parties.

8. It is derived from Louis XIV's custom of asking his guests to observe and keep within the etiquettes (tickets or signs) which marked the garden beds and paths at Fontainebleau.

9. The archer fish inhabits the fresh waters of Siam and the East Indies. It is so called because of the way in which it secures its food, by shooting insects with a pellet of water.

## AROUND THE HOUSE

**Darn When New.**—If new socks are reinforced by darns worked on the wrong sides of heels and toes before they are worn, they give double wear.

**Better Bread.**—Yeast and baking powder breads will be softer and more tender if the dough is allowed to stand 10 minutes just before kneading.

**For Stained Tables.**—Dressing tables often get stained with cosmetics and scents. To remove such stains, rub well with paraffin, leave for a few hours, then rub with furniture cream and polish with a soft cloth.

## HOW TO SEW

by Ruth Wyeth Spears

3 BLACK AND 2 PEACOCK BLUE OVALS - BORDER RUST RED, BLACK AND PEACOCK BLUE

Grandmother Surprised Everyone.

YES, a certain grandmother surprised everybody—even herself. She had always enjoyed making hit and miss rag rugs in cheery colors. Then one day her favorite grandson brought home the girl he was going to marry. She was a bright young thing, and chattered away about color schemes for her new home.

The living room and hall were to be peacock blue and rust with black. So Grandmother got out her dye pot and her best wool rags, and she mixed and she dipped and then she made five ovals of the size shown here—3 black and 2 blue. She sewed these together, then around them came 4 rows of rust; 2 rows of black next; then 4 of rust; 1 of black; 4 blue; 2 black; then 8 rows of blue around the outside.

When the wedding day arrived this gift was a great surprise;

even Grandmother was amazed at how handsome it looked at the foot of the stairs in the new house.

Women everywhere are using their leisure to make their homes more attractive, with slipcovers; curtains; bespreads and lampshades. They are again taking up embroidery and handwork so that they may beautify their homes and there is a revival of interest in old time hand crafts.

Mrs. Spears' Book 1, SEWING for the Home Decorator, and No. 2, Gifts, Novelties and Embroidery, clearly chart the way for you. If the old craft of rag rug making is your new hobby, you may have free Mrs. Spears' leaflet on rag books at 25 cents each. Address, Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

### Fire Walkers

Fire walkers claim faith protects them from injury as they walk barefooted across a bed of hot stones or smoldering ashes, says Collier's. Others claim fire walking is a trick the fanatics are able to stage because they use a fuel that is a bad conductor of heat, because they walk so rapidly that the contact is too brief to cause a burn and lastly, because they are able to induce some kind of anesthesia.
