HELP STOMACH DIGEST FOOD

Without Laxatives—and You'll Eat Everything from Soup to Nuts

The stomach should digest two pounds of food daily. When you eat heavy, greasy, coarse or rich foods or when you are nervous, hurried or cheerless—your stomach often pours out too much acid. Your food doesn't digest and you suffer from gas, heartburn, nausea, pain or sour stomach. You feel sour, sick and upset all over. Doctors say never take a laxative for stomach pain. It is dangerous and foolish. It takes those little black tablets called Bell-ans for indigestion to make the excess stomach fluids harmless, relieve distress in no time and put you back on your feet. Bellief is so quick it is amazing and one 25c package proves it. Ask for Bell-ans for Indigestion.
