FARM MANAGER

There's a lot of work and detail to running a farm, and since you direct it all yourself, you need a telephone.

A telephone can save you money and make you money—far more than it costs. It helps you find out just when and where to buy or sell at the best prices. It runs errands. It summons help in time of emergency.

There's no substitute for a telephone on the farm and it costs so little that to be without one doesn't pay.
