BOUNTIFUL CROP PROSPECTS FOR NATION THIS YEAR

With the nation's crib and warehouses already filled with larger than normal surpluses from previous years, the Agriculture Department reports that bountiful harvests of most grain crops, vegetables, fruits, feed and fiber crops were in prospect.

To housewives concerned over possible shortages due to the European war, the department said larger than average crops of corn, barley, rye, grain sorghums and hay—the raw material for meats, dairy and poultry products; beans, sweet potatoes, sugar cane, sugar beets, apples, peaches, pears, grapes and vegetables were indicated.

The Department based its consumer assurances on the crop reporting board's estimate of production, as indicated Sept. 1. Corn production was forecast at 2,523,092,000 bushels, an increase of about 63,000,000 bushels over the August forecast. The ten-year (1925-37) average is 2,309,674,000 bushels and last year's crop was 2,542,235,000 bushels.

The crop board said production prospects increased 3 to 10 per cent for cotton, flaxseed and grain sorghums, and nearly 7 per cent for the bean crop. Corn, Spring wheat, oats, barley, potatoes, hay and sugar beets showed improvement of two to five per cent.

Although wheat production was estimated at 736,115,000 bushels—or 21,520,000 bushels less than the ten-year average—the nation has an estimated surplus of 254,000,000 bushels from previous years. The country normally needs about 630,000,000 bushels annually.

Telephone lines along the Bellefonte-Lewistown road are being relocated by the Belle Telephone Company from Old Fort to Potters Mills to conform with highway improvements in that section. It was announced today by Jesse H. Caum, manager.

LOCAL HIGH OPENS SOCCER SEASON WITH VICTORY

The Centre Hall-Potter high school opened the soccer season on Friday afternoon with a 3 to 1 victory over Rebersburg at the latter's field. The game was not a regular league game but a warm-up for the official schedule which opens this week, Friday, September 22. On this date the "Tigers" travel to Loganton to engage the much-improved Loganton high eleven. The Rebersburg tilt uncovered several weaknesses on the part of the local orange and black men, namely, in passing and defensive play. This week in their practice sessions, the squad is attempting to overcome these rough spots in order to be better prepared for the approaching league games.

With only four regulars back from the 1938 starting eleven, the Centre Hall-Potter booters are largely a green squad. The returning veterans around whom Coach Myers will have to build the 1939 team are, George Martz, outside left; Bob Faust, inside; Don McCormick, center half-back; and John Knarr, left half-back. Other players who saw considerable action last year and who show promise of making this year's club are: Dean Bradford, center; Edgar Hartner, outside; Bill Brooks, half-back; Vince Trentner, full-back; Ray Delaney, full-back; and Bob Homan, full-back. Newcomers to the soccer squad include: Gilbert Ralston, Dean Smith, Bob Arney, Dean Reish, Bruce Moyer, Albert Dutrow, Bob Gearhart, John Runkle, Ernest Frank, and Nevin Crater. Harold "Casey" Reish is again serving as student manager, and an assistant manager will be selected this week.

A 44-year-old woman was burned to death on Sunday at New Bloomfield, Perry county, in a vain effort to save two calves from a fire which destroyed her father's barn, machinery, crops and two other buildings at nearby Blain.

Mary Miller, 44, and her sister Frances, made a gallant attempt to rescue the calves when fire of unknown origin swept through a straw stack in the stables.

Frances escaped with burns of the neck, hands and shoulders, but the elder unmarried sister was trapped. Her charred body was recovered from the ruins by Miles Bower, a farmer neighbor.

CENTRE HALL WINS 7 TO 3 IN GAME WITH ST. COLLEGE FOR COUNTY CHAMPIONSHIP

A three-game series of baseball between Centre Hall, champions of the Tri-Valley League, and State College, winners of the Centre County League, was arranged last week, and the first game was played Monday evening at Centre Hall, resulting in a 7 to 3 victory for Centre Hall.

The local club had on its batting logs and went after Gearhart, leading Centre County League pitcher, driving him from the box in the 6th inning. Gates and Wrigley, in relief roles, fared no better, while Dursk, for the locals, after getting away to a bad start and permitting two runs in the first two innings, settled down and blanked the enemy for the next five innings. The game was called by Umpire "Bud" Coldron at the close of the 7th on account of darkness.

The second game was played at State College Wednesday afternoon, but this paper went to press before the result was known. If a third game is necessary, its locale will be decided at the close of the second game.

FARM CALENDAR

Timely Reminders from The Penn'a State College School of Agriculture

Housing the Layers—The conditions under which pullets are housed in the fall greatly influence their future productivity, poultry extension specialists at the Pennsylvania State College report.

Being creatures of habit, they are affected by sudden changes of environment and management. This calls for careful attention when they are being housed in the fall.

Winter Barley More Popular—The popularity of winter barley in Pennsylvania has increased rapidly during the last 10 years, Penn State extension agronomists report. It ordinarily yields twice as many bushels per acre as wheat. Farmers find it an excellent feed for livestock.

Oiling Farm Machinery—Extension agricultural engineers at Penn State warn that oiling moving parts of farm machinery may be harmful if its results in the collection of grit which accelerates abrasive action.

Correspondence Courses for Farmers—Forty-five correspondence courses in agriculture and home economics are offered by the Pennsylvania State College. At least 4500 farmers are receiving lessons.

New Heavyweight Pulling Record—A good team and expert horsemanship are necessary in making an outstanding drawbar pull. Penn State livestock extension specialists have found. Such a combination recently resulted in the establishment of a new record in the heavyweight division. A team driven by Roscoe Mitchell of Waterford, Pa., pulled 3600 pounds.

Controlling Ants—The little red ants in the lawn can be controlled by feeding them a poison bait made by mixing one ounce of Paris Green with one pound of brown sugar, say Penn State entomologists. This amount is enough to spread over 10,000 square feet of lawn.
