render them invaluable in an educational goint of view,
as they tend to enlarge the intelligence and the appreciation, and at the same time form the taste of the
appli. They must be studied carefully with reference
to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which
these are accomplished depends the actual sterling advancement of the pupil; any evasion or slurring in these
respects is time and effort utterly wasted, while, on the
other hand, a close and patient investigation, and a minutely faithful execution of them, will give the expected
power and faculty, and open to the student the mean
and resources by which great artists produce their most

HIGHLY IMPORTANT TO YOUNG MEN CONTEMPLATING A BUSINESS EDUCATION. TO know that this Institution employs none but competent instructors in every department, and a sufficient number to insure individual instruction to all of its students, and being connected with "Dickinson College" enables it to present combined facilities of the highest order, while the current expenses attending a course here, are from 50 to \$100 less than at similar institutions in large cities. We think that when these facts are properly understood by those who contamplate antering an institution of this order, they will not be long in deciding in favor of Carlide.

The following course of Instruction should commend itself to all, who desire they believe in the following course of the state of the first state of the following curse of Instruction should commend itself to all, who desire that kind of information most requisite to prepare them for any of the business pursuits in life.

DOTY'S CLOTHES WASHER. THE BEST IN MARKET. READ THE FOLLOWING HOME TESTIMONY. GETTYSBURG, PA. Jan. 8, 1866 Having used DOTY'S CLTOHES WASHER, and ther-Having used DOTY'S CLTOHES WASHER, and theroughly tested it, we have no esitation endorsing it as the best Washing Machine yet produced. It is simple in construction—is easily worked, and does its work well, without injury to clothing. An ordinary washing, requiring usually 8 to 10 hours labor at the Washtub, can readily be done with the aid of Doty's Washer and the Uninersal Clother Wringer, in one-third the sime—economizing time, labor, wasp, incl. &c.,—avoiding the necessity of wash-tubs, and enabling the person working to go through with a washing without wetting themselves or the floor. It really merits sill the good that can be said of it. We do not think that any family, after fairly testing it, would dispense with it.

An Interesting Letter is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla, in certain effections by Boulamin Travers, F. B. S.,
etc. Speaking of those diseases, and diseases arising
from the excess of murcury, he states that no remedy le
equal to the Extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with this
invaluable attribute, that it is applicable to a state o

THE GREAT CHOLERA PREVENTATIVE. THE GREAT

THIS WONWERFUL REMEDY was discovered an introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician.

He had long seen and left the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivideolors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedice then in use. Thus he was led to think and experiment; and after ten years study and labor, he presented to his fellow-man the wonderful Zingeri Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellour and asteroising, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Rolt of Nobles, and a gold medal with the following inscription—Dr. S.Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of The preparation has been used in several epidemics of cholers, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholers, and therefore any remedy that will protect ma against this terrible disease should be freely and persistently sued.
All pathologists now agree that the cholars poison acts
on the system through the blood, and that any combination which acts on the exercitory organs, and keeps them
in working order, must prevent a sufficient accumulation
of the poison to exert its terrible effects on the organism. A FAMILY BLESSING FOR 200 CENTS of the polson to exert its terrible effects on the organism. This is true not only of cholora, but of nearly all other maiddles, especially the different forms of fever. The Zinguri Bitters is just such a remedy as the above conditions require. It acts on the organise fexeretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocced that every organ is acted upon an put in tone. Its taste is pleasant and its effects prompt and lasting. prompt and lasting.
