NEW WORK ON SINGING. BASSINI'S Twenty Melodic Exercises. IN FORM OF SOLFEGGIOS FOR SOPRANO OR MEZZO

SOPRANO VOICES,

"These exercises were composed to be used simultaneously with his system, "The lar of Binging," or with
any other method for the cultivation of the voice, and will
take the piace of CONCONE'S SOLFEGOIOS; being
more melodious and better adapted for teaching.

"Bome of these exercises are specially beautiful as
well as useful, a mingling of the dulcet ettit, which secures the interest as well as the improvement of the
student. The various styles developed in these exercises
render them invaluable in an educational point of view,
as they tend to enlarge the intelligence and the appreciation, and at the same time form the taste of the
pupil. They must be studied carefully with reference
to the immerable marks of expression and forms of ornamentation. Upon the minute accuracy with which
these are accomplished depends the actual sterling advancement of the pupil; any evasion or sturring in these
respects is time and effortiatterly wasted, while, on the
other hand, a close and passent investigation, and a minutely faithful execution of them, will give unexpected
power and faculty, and open to the student the means
and recourses by which great artists produce their most
brilliant and protound effects.—Westow's Art Journal.

THE BEST IN USE.—These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acanowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine.—They are the only Machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family nee. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. They sare labor, they sare time, and theysare morey, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams co., where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

BRINKERHOFF'S OORN SHELLER, SEPARATOR AND CLEANER.

The underigned would inform the Agricultural public that he has purchased from the Patentee o this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland. Brinkerhoff's Corn Sheller, Separator and Clean-ir, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned at the "Advisory Committee appointed to select Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been hipped to Paris for exhibition. One important enture in this machine is that it will shell ears large, small or crooked, perfectly clean, and separates the cob and chaff from the Corn ready The fact may also be stated that at the great trial of Agricultural Implements, at Aubarn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this ma-chine, and have no hesitation in pronouncing it the best Corn Sheller we ever saw." The re-

port is signed by such men as John Stanton Gould Presulert N. Y. State Agricultural Society; B. P Johnson, Secretary to same; Solon Robinson, Ag ricultural Editor N. Y. Tribane; S. Edward Todd Agricultural Editor N. Y. Times. From among many complimentary newspaper notices, the following, from the N. Y Observer is deemed sufficient: is deemed subsect:

DR. L. J. GROVE'S UNIVERSAL. MAGNETIC SALVE & PLASTER This deservedly popular remedy, having been greatly improved, is now offered to the citizens of Adams county.

The many thousands who are daily using it, testify to its magical virtues in the early stages of Consemption, Coughs, local Bheumatism, Neuralgia, Jaw and Tooth Ache, Weahness and Pini in the Back, Side and Kidneys, Cincer, Scrofula, Old Sores. Evysipelas, Fresh Wounds, Burns, Bruises. Sere or Infamed. Breasts, Inverted The Natis, Corns, Bunions, &c., dc.

Its mysterious virtues, and the wonderful cures it has performed, might be published; but the discoverer is willing to rely on its intrinsic merits, in order to introduce it into every family in the country.

JEJy 31, 1867.—1y HELMBOLD'S CONCENTRATED PLUID EXTRACT SARSAPARILLA Bradicates Eruptive and Glocrative Diseases of the Thron Nose, Eyes, Eyelids, Scalp, and Skin, Which so diffigure the appearance, Purging the evil effects of Murcury, and removing all taints, the remnants of Diseases, hereditary or otherwise, and is taken by Adults and Children with perfect Sasty.

Two Tablespoonfulls of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Divet Drink, and one bottle is equal to a gallon of the Syrup, of Sarsaparilla, or the decoctions as usually made.

An Interesting Letter is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla, in certain effections by Benjamin Travers, F. R. S., etc. Speaking of those diseases, and diseases arising from the excess of murcury, he states that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary, more so that sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with this invaluable attribute, that it is applicable to a state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurons.

Medical. THE GREAT CHOLERA PREVENTATIVE. X. 1866. L.

THE GREAT Zingari Bitters. Tills WONWERFUL REMEDY was discovered an introduced about twenty years ago by Dr. 8. Cheep use, an eminent Exprisan physician.

He had long seen and felt the want of some remedy which wested strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivideolors as he moved among the sick and dying, and observed the inefficiency of userly all the rumedies then in use. Thus he was led to think and experiment; and after ten years' study and labor, he presented to his and after ten years' study and labor, he presented to his

then in use. Thus he was led to think and experiment; and after ten years' study and labor, he presented to his sellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of discesse, was so mervellourand astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S.Cheopsus, the Public Benefactor—was presented to kinn by the Viceroy.

The preparation has been used in several epidemics of cholers, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general consequents of the old world.

The old saying that an oance of prevention is worth a pound of cure, applies with marvellous time to cholers, and therefore any remedy that were problem as against this terrible disease should be freely and parsistently sued. PAGE'S CLIMAX SALVE,
