These World-renowned Sewing Machines were awarded the Highest Premium at the
World's fair, in London, and six First Premiums at the
N. Y. State Fair of 1866, and are celebrated for doing
the best work, using a much smaller needle for the
same thread than any other machine, and by the introduction of the most approved mechinery, we are now
able to supply the very best machines in the world.
These machines are made at our new and spacious Factry at Bridgeporf, Conn. under the immediate supervision of the President of the Company, ELIAS HOWE,
Jr., the original inventor of the Sewing Machine.
They are adapted to all kinds of Family Sewing, and
to the use of Seamstresses, Dress Makers, Tailors, Manufacturers of Shirts, Collars, Skirts, cloaks, Mantillas,

THE BEST IN USE,—These Machines have becomso well known that little need be said by way of recommendation. They have taken the first premium at all the late State Vaile, and are universally acanowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine.—They are the only Machines that see wand embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseighs, see directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. They are labor, they rave time, and they sare money, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, bas established an Agency in Fairfield, Adansico, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endura.

This great question was presented to his mind every day in vivid culors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after fen years study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, ection or interference with business pursuits, and n change of diet is necessary while using them. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S.Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholers, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general homicial of the old world nearly all the general hospitals of the old world.

The old saying that an ounce of prévention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that with protect me against this terrible disease should be free y and horsistently sued. All pathologists now agree that the cholora poison acts n the system through the bloco, and that any combina-ion which acts on the excretory organs, and keeps them tion which acts on the exerctory orans, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert interrible effects on the organism. This is true not only of cholers, but of nearly abother maladies, especially the different forms of lower.

The Zingari Bitters is just such a reastly as the shove conditions require. It acts on the disparse expection and secretion. Reeping up a jerfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely connected that every organ is setted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

ORN SHELLER, SEPARATOR SOLFEGGIOS FOR SOPRANO OR MEZZO AND CLEANER. The underigned would inform the Agricultura The underigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in the control of the province. "These exercises were composed to be used simultaneously with his system, "The art of Singing," or with any other method for the calcivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the dulce et utile, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intellige see and the appreciation, and at the same time form the taste of the papil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which these are accompliated depends the actual sterling advancement of the pupil; any evasion or slurring in these respects is time and effort actually while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and faculty, and open to the student the means and resources by which great artists produce their most brilliant and prolound affects.—Weston's Art Journal.
