BEATEN-NOT CONQUERED.

As we write, the Democracy are jubiiant over their so-called victory in Penn-sylvania, and their joy finds expression in the booming of cannon, the rattle of drums, and the hoarse shouts of men and boys. Outside of Philadelphia the gains and losses pretty nearly balance each other. Philadelphia gives SHARSwood 2,477 majority, while last year it gave GEARY 5,388. The same vote in Philadelphia this year would have given the State to the Republicans by over 7,-000 majority. In addition to this the official returns show that the vote in the State has been unusually light-probably 80,000 less than last year. While the Democracy went into the canvass energetically, and with the aid of secret circulars, thorough organization, and plenty of money, succeeded in polling a comparatively full vote, the management of the Republican canvass was sluggish in the extreme—thousands of Republicans failing to vote, by reason of want of appreciation of the importance of the con-While, therefore, it is evident that the

Republicans have lost the State, by rea-

more serious character. Now Pennsylvania is lost by a majority of some 800, while the Legislature is Republican in both branches. Ohio elects the Republiean Governor, but gives to Democracy the Legislature by four or five majority. In 1862, on the other hand, our defeat lost our State ticket, but ith it the Legislature, enabling the Democracy to send York gave SEYMOUR 8,000 majority, with a Democratic majority in the Congres-Illinois went heavily Democratic-Illinois by 20,000, and Indiana by 10,000.-Yet the next year (1863) the Republicans rallied and swept these States by heavy majorities—Pennsylvania by 15,000, New York 32,000, Indiana 15,000, Illinois 20,-(00), and Ohio 80,000! The Democracy of 1862, as now, bawled themselves hoarse with cries of "Re-action," "The Nigger," and the assumed "Death of the Republican Party." But the Republicans, so far from yielding to despondency, a once went to work to close up their ranks. "Every man to his post!"-was the watchword, and glorious victory the re

So it will be again. Although beaten in the late contest, the Republican party has not abdicated its principles, NOR WILL IT. Honor and duty-the present become the recognized policy of the Republic, engraven in the National heart and irrevocably written in its statute books. As in 1862, so now, the thousands of sluggish, stay-at-home Republicans will have learned that victory can only be achieved in a full vote-every man doing his duty. With the lessons of the present defeat before us, victoryfull, thorough, and overwhelming-be-Presidential struggle.

THE vote in the State at the late election is about 80,000 less than last year.-In Adams county it is 770 less.

AN INTERPRETING PRLIC

We give a sample of "Democratio" tactics in the recent campaign. The subjoined circular to the Chairmen of the Democratic County Committees, develops the agencies resorted to for the polling of the "Democratic" vote. The scheme is worthy of the fertile brain of WALLACE, who is equally skilful in devising means to poll deserter votes in violation of law, as shown last year, and in buying out his party vote, as shown this year. The "Democrats" must have been flush, to have been able to pay their sluggish men for voting. The practice is a long step in the way of a thorough degradation of the elective franchise, and fitly comes from a party which loudly prates of its purity:

"DEAR SIR:-The necessity for close attention to details in this contest is most apparent. It is comparatively noiseless, but it should be

With the theological difficulties in the Lutheran Church, the "Star and Sentinel," as a secular paper, is in no wise concerned; and if the Lutheran guardians for themselves. But we can't ex actly understand the animus of these persistent and discreditable assaults upon Penna. College. The Lutheran professes to be a religious journal. Since the withdrawal of Dr. KRAUTH, it seems to have no responsible editor. Whoever the conductor of it be, we take the liberty of suggesting to him that persisent misrepresentations, and perversions of truth, are not the legitimate province of a religious journalist, and that the dignity as probably also the usefulness, of the Lutheran might be largely enhanced by more re-

BROWN, HAY and VALENTINE, of this place, Revs. ALLEMAN and YINGLING of Hanover, being present, and assisting in the exercises, which are represented as having been very interesting. This church is the largest and handsomest in the county, the pews on sons. It has a steeple, basement, lecture room, all finished in good taste—the church room proper being handsomely freecoed with stained windows. It cost shout \$12,000 -25,000 of which had been raised by subscription. About \$3,500 additional were contributed on the day of consecration-leaving

about \$8,500 as a debt. PREMIUM .- At the Cumberland county at Sunbury, and on the day when prostrated Agricultural Exhibition last week, the First had presched three times. He was aged 62 Premium was awarded to the "Diamond Churn," exhibited by WM. WIBLE, of this county.

IMPORTANT LETTER.—The following letter has come into our hands, and we publish it for the information of those who doubt the purity of Speer's Wine: This is to certify that Mr. Alfred Speer is a resident of this village, and, to my personal knowledge, has devoted a number of years to the manufacture of pure and valuable wines, He has a large vineyard in view of my residence, and has been for some time engaged in

cultivating the Port Grape. The Port Grape Wine cannot be excelled by any American wine. It is bottled by Mr. Speer every season in large quantities, but not disposed of until it attains the age of four years. Passaic, Oct. 20th, 1865. D. B. SICKLES. Central National Bank, New York. Some of our druggists have this wine direct from the vineyard.

Bowie for everything in its line and defying competition. This wonderful Parlor and Office Stove is so constructed that the cheapest quality of coal (limeburner's) can be used with perfect success. Sufficient coal to last twenty-four hours is supplied in the morning, thus avoiding the trouble and dirt consequent upon the hourly attention required for ordinary coal-burners. It burns continuously, so that one kindling of the fire is all that is necessary for six months. The ventilation through the stove permits the temperature of the room to be raised to a high egree without rendering it close or stifling. There is no dust, no escape of gas, and an actual saving of coal, which in two seasons will pay for the stove.
