Miscellaneous. A LIBRARY OF UNIVERSAL INFORMATION

WASHINGTON LIBRARY CO., THE NEW AMERICAN CYCLOPÆDIA: Is Chartered by the State of Pennsylvania, and Organ POPULAR DICTIONARY OF GENER-AL KNOWLEDGE. RIVERSIDE INSTITUTE FOR EDUCATING GRATUITOUSLY SOLDIERS' AND SAILORS' ORPHANS

GEORGE RIPLEY AND CHARLES A. DANA, DED BY A HUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE. In 16 large volumes, 8vo. SUBSCRIPTION ONE DOLLAR 750 double-column pages in each volume.

The leading claims to public consideration which the year American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopsedia Britannics.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated and where information can be gleaned which will enable a student. If he is so disposed, to consuit other authorities, thus affording him an invaluable key to knowledge. THE WASHINGTON LIBRARY COMPANY BY VIRTUE OF THEIR CHARTER, ACCORDANCE WITH ITS PROVISIONS.

Every one that reads, every one that mingles in so

Every one that reads, every one that mingles in society, is constantly meeting with alusions to subjects on which he needs and desires firther information. In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always astispactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned. A Cyclopedia is preeminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little last required, without the certainty of finding it at last. With a Cyclopedia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, confrused, stripped of all that is irrelevant and unnecessary, and varified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopedia, in the professional man, the farmer, the mechanic in a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

Medical. THE GREAT CHOLERA PREVENTATIVE.

X. 1866. L. THE GREAT Zingari Bitters. TVINS WONWERFUL REMEDY was discovered an introduced about twenty years ago by Dr. S. Cheop sus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compalled to endure.

vent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivideolors as he moved among the sick auddying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years' study and labor, he presented to his fellow-man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellousand astonishing, that the mostflattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon him who discovered it. His name was placed upon the Roil of Nobles, and a gold medal with the following inscription—Dr. 8. Cheopans, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an onne of prevention is worth a pound of corre, applies with marvellous force to cholera, and therefore any remedy that we appear to respect to a significant the content of the old saying that an onne of prevention is worth a pound of corre, applies with marvellous force to cholera, and therefore any remedy that we appear to respect to a significant the content of the old saying that we have the content of the same of the old world. and therefore any remedy that we proved us against this terrible disease should be tree and persistently sued.

All pathologists now agree the this choice a paison acts on the system through the blood, and there are possible to the very best preparation for the Hair. It is a positive cure for Baldness, eradicates Dandruff and Humors, to the high prevents sufficient accombination working order, must prevent a sufficient accombination of the polsen to exert interrible effects on the organism. This is true not only of choices, but of nearly art other maiddles, especially the different terms of flever.

The Zingari Bitters is just socia a remedy as the above conditions require. It acts on the organism serverion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbus, so picely concorted that every organ is acted upon amo put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Dysentery, Scroflia, Typhoid and Typhus Fever, Pever, Ague, Nervous Debility, Anaemia, Female Irregularities, Dyspepsia, Flatulency, Colic, &c.

SEWING MACHINES! THE GROVER & BAKER. THE GROVER & BAKER.

THE BEST IN USE.—These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acanowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine.—They are the only Machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. They save labor, they save time, and they save money, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams co., where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

Fairfield, Adams county, Pa. Agricultural Implements. BRINKERHOFF'S CORN SHELLER, SEPARATOR

AND CLEANER. The underigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for he States of Pennsylvania and Maryland. Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in or, is pronounced the cost machine of the this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition. One important feature in this machine is that it will shell ears large, small or crooked, perfectly clean, and separates the cob and chaff from the Corn ready or market. for market.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it the best Corn Sheller we ever saw." The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribane; S. Edward Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the fellowing, from the N. Y. Observer,

is deemed sufficient:

"Among all the Hand Corn Shellers made i New York and Albany—and one single firm mar ufacturers more than 10,000 annually—not o can enter the circle with the Sheller just invented by J.
