THE ELECTIONS.

The elections of last Tuesday resulted as follows: In NEW YORK, the Copperhead State the Assemblymen for one. The Senate by the devil. being Republican is so much secured on Bad as Judge Bullock is, and dangerbut our party was not harmonious of united, and defection was the result. -The Raymond and Weed men claim to have been badly treated at the last Republican State Convention, and were indifferent as to the result. The World admits that the victory was largely due to the dissatisfied Republican element. A considerable number of German Re publicans "bolted" on account of Temperance and Sabbath legislation which their personal rights. Besides, the next Presidency entered into the controversythe Raymond wing, who are for GRANT, feeling that a defeat of the regular ticket would have the effect of killing off Judge Chase who is the preference of the Greeley wing, forcing the abandonment of some special measures to which they are or posed, and compelling the nomination of Gen. GRANT, whom they consider less radical than Judge CHASE. We gather these various facts and theories from the papers, and presume they account for the result, in large part. The result involved only the election of a whatever which may not be made up

LING, made U. S. Senator last winter. In New Jersey, the Copperheads elected five out of six State Senators chosen, which will give them a majority of one in that body, and a majority of about thirty in the House. The majority in the State-on legislative candidates-is about 10,000. No State officer was chosen, on general ticket. Our friends in JERSEY got into a general row, and have their reward. The lesson ought to do them good.

In MASSACHUSETTS, the Republicans have elected their Governor and State officers, by about 26,000 majority. The issue turned upon the Liquor Question. islature many years ago, and has been ditions broke down the law, and will involve a return to the old system of Li-

In MARYLAND, the Copperheads have elected their Governor and State officers, and carried every county. The majority for Governor is about 40,000. The sweep pute the sympathy of an overwhelming the Rebellion-its theories, principles, purposes, and agents. It is said that Gov. SWANN, Cop., is to be made U. S. Senator, in place of REVERDY JOHNSON, Cop. The latter has no chance of re-election, in any event. He is an able man, and SWANN is greatly inferior, and would be without standing or influence in the body. In the West, the Republicans have

done astonishingly well. In ILLINOIS, the election was for local offices, only; and we have held our own everywhere and made gains. In Wisconsin, where we had reason

participated in by Revs. CARNAHAN and age. And yet to-day, more than one-third of stock at \$1 per share, each share or shares bethis vast work has been finished. The Union ing accompanied by a handsome fine steel-Railroad Company, organized in 1863, began plate engraving, worth fifty per cent more to build in 1864, had only fairly got to work than is actually paid for the stock. Besides The amount of money sent to the Parent in 1865, and in October, 1867, have completed this, every share of stock secures one present five hundred miles of road which has been in the great distribution of presents to sharepronounced by Government Commissioners holders. Of these presents the aggregate valfirst-class in construction and equipment. — | ue is \$300,000, one of them being worth the This Company is constructing the eastern end enormous sum of \$40,000, another \$20,000, of the line, beginning at Omaha, Nebraska; another \$10,000, and one worth \$5,000, and while the Central Pacific Company is building | two worth \$2,500 each, several worth \$1,000 the western end, beginning at Sacrameuto, each, and so on. This is simply the plan in California.

Pacific Railroad are: 1st, Its importace as a | in the great distribution, besides the beautiful 25 00 national enterprise; 2d, The especial privious engraving at the time of perchase, and each 64 84 leges granted to it by the Government; and one has arrequal chance of getting a small 3 25 3d, The unusual care taken by the Govern- fortune. \$94 59 | ment enactments for the safety of investment in its securities. The national importance of a railroad to the

Pacific can hardly be overestimated. The Government is spending millions of dollars annually in transporting men and material to its frontier posts; with a railroad in operation, this expense will be reduced at least threefourths. The gold and silver mines of the Western States and Territories yield annually about one hundred million dollars: with the increased facilities for emigration, and for transporting the requisite machinery for the thorough development of the mining region which a railroad will afford, this production will be at least doubled. The public lands in State, have been comparatively worthless, because they were inaccessible, and consequent-. unproductive : the Union Pacific Railroad opens all the great valley of the River Platte and vast regions beyond to the occupancy of thrifty emigrants, and has already established such a succession of thriving towns as will bring all land in the vicinity of the railroad into active demand. In case of foreign war or domestic revolution, the existence of a railway line, by which troops could be conveyed from the Atlantic to the Pacific, or vice versa, the Utah expedition, the saving to the Govcrnment by means of this road would be enough to construct the entire line. Gen. could afford to build the whole road rather than be without it," and there are abundant reasons for pronouncing this opinion a sound

So great are the manifest national advantages to be derived from a Pacific Railroad, that the two powerful companies authorized to build it received very extraordinary grants to the companies to the amount of 12,800 acres per mile; and then United States bonds, to an were advanced to the Companies, which have MOFFAT'S LIFE PILLS! the privilege of paying a large part, if not all. of this indebtedness to the Government, by the transportation of mails and war and other national material. No other industrial enter-Government as this.

Having made such special grants as indicated its entire confidence in the full success of the undertaking, the Government took unusual care that those who joined with it in assisting the Union Pacific Railroad Company should be amply secured against any probability of loss or failure. The Company was authorized to issue its own bonds to an amount equal to the advances of the Government, and these bonds constitute the first mortgage upon the road, the claim of the Government being nade a second lien. The Government ap- York. points five Directors, who shall look carefully after the management of the road: and also are moving for the extension of the Northern three commissioners, whose duty it is to thor-Central Railway to the Lake Shore, at Pult- oughly inspect each section of twenty miles pefore the bonds can be issued upon that section. Thus the bonds represent, not a projected enterprise, which may be completed. but a finished and equipped railroad, earning very largely in excess of its expenses, and

with a future which cannot fail of being emi nently profitable The future business of the only railroad connecting the Atlantic and Pacific states must be something marvelous, and we venture the prediction that no single track will long accommodate the endless succession of trains that will crowd its entire line. Western Europe is waiting for it, as the shortest route to Eastern Asia; and how many anxious hearts in the old home states are longing for it, to join

hands with friends and relatives, without the cost and risk of a long, dreary and dangerous vovage in a crowded steamer along two oceans. But if the business of the completed line is to be something marvelous, the local business on the sections already finished is not less sat-

Every reader of this sheet is interested in the rapid prosecution of this work. Every new agricultural or manufacturing communimarked that there would be war within fifty ty established by the opening of this road will days, and that he should have a hand in it . | add to the national wealth and and in paying Whereupon a "boy in blue" said there would the public debt. Every acre of land hitherto be war within fifty minutes, and knocked the unimproved, which shall now be cultivated, increases the store of food for our own population or for export. Every additional ton of carrying out the Reconstruction law have gold or silver that is mined puts money in the been kept within the estimates made when the public purse. The road will be the great bill passed. The amount appropriated was agent in the development of the American future before it as the finished line is certain to have, and with so many guarantees for the protection of the interests of those who invest in it, we cannot but think that its bonds constitute one of the best investments now before the American people. Their special advantages are set forth elsewhere, and the character of the financial officers of the Company is sufficient guarantee that those advantages are not exaggerated in the slightest degree. - Ex-

PORT WINE.—There have been, at various times, articles introduced to the public under the name of Port wine, strongly recommended for medicinal purposes, which are calculated to do more harm than good, having little else than the name to recommend them. Such, however, is not the case with the Port Grape Wine, advertised by Mr. A. Speer of Passaic. N. J. We have seen his vineyard, and the wine in process of manufacture, and know it o be the pure juice of the grape. We have also been through his cellars, which never contain less than sixty thousand gallons, and seen casks piled on casks maturing. Mr. Speer does not bottle or sell any under four years of age .--Peoria Transcript. The above can be had of our druggists. It NEW LAMPS .- We ask attention to a new amp just received by J. W. CRESS, which combines very great advantages. It fur-

senerator can be attached to any ordinary Lamp. Housekeepers will do well to look at this Lamp. Special Aotices.
