500 MILES OF THE

Union Pacific Railroad. BUNNING WEST FROM OMAHA ACROSS THE CONTINENT,

ARE NOW COMPLETED. THE Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California and it is expected that

THE ENTIRE GRAND LINE to the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, NOBE THAN ONE-THIED OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than FORTY MILLION DOLLARS IN MONEY

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of tunds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Raifros, it develop and protect its own interests, it gave the Companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. Thenvail able means of the Union Pacific Raifroad Coupany, derived from the Government and its own stockholders, may be briefly summed up as follows: 1.-UNITED STATES BONDS

Having thirty years to run and bearing six per cent. cur rency interest at the rate of \$16,600 per mile for 617 miles on the Plains; then at the rate of \$48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of \$32,000 per mile for the remaining distance, for which the United States takes a second lien as security. The interest on these bonds is paid by the United States government, which also pays the company one-half the amount of its bills in mouey for transporting its freight, troops, mails, ac. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which, may finally discharge the whole amount of this lien.—The claims against the government since April of the current year amount to four and one-half times this interest. 2.—FIRST MORTGAGE BONDS.

ly its charter the Company is permitted to issue it own first Mortgage Bonds to the same amount as the bonds issued by the government and no more, and only as the road progresses. The Trustees for the bondholders are the llon. E. D. Morgan, U. S. Sanator from New York, and the flon. Jakes Ames, Member of U. S. House of Representatives, who are responsible for the delivety of these bonds to the Company in strict accordance with the tegms of the law. 3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute donation from the government of 12,880 acres to the mile on the line of the road, which will not be worth less than \$1.50 per sore at the lowest valuation. 4.—THE CAPITAL STOCK. The authorized depital of the Union Pacific Railroad company is \$100 000,000, of which over \$5,000.000 have seen paid on the work already done.

THE MEANS SUFFICIENT TO BUILD Contracts for the entire work of building 914 miles of first class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except spreying, have been made with responsible parties (who have alread) finished over 500 mites), at the average rate of sixty-eight thousand and fifty-eight dollars (388.055) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations, and all other incidental buildings, and also locomotives, passenger, ba, gage, and freight cars, and other requisite rolling-stock, to an amount that shall not be less than \$5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred mileassumed to be built by the Pacific Company to be \$90,000 per mile. The Total Cost of Eleven Hundred Miles

will be as follows: As the U.S. Bonds are equal to money, and the Compony's own First Mortgage Bonds have a ready market we have as the FINE TIMBER LAND. Available Cash Resources for Building

Eleven Hundred Miles:

The company have ample facilities for supplying anydeficiency that may arise in means for construction.—
This may be done wholly or in part by additional subscriptions to capitalistics.
Active inquiry has already been made for a portion of
these lands and arrangements. Active inquiry has aircary been made for a portion of these lands, and arrangements are now proposed to offer part of them for sale. White their whole value will not be available or some years to come, they will remain a very important source of rerenue to the Company. The lands of the Illinois Central Railroad Company are selling at from \$6 to \$12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

FUTURE BUSINESS FORCE PUMPS, business that must flow over it, as the only railroad connecting the two grand divisions of the North America.

continent, will be one or the wonders of railway trans-cortation; and as it will have no competitor it can al-ways charge remunerative races. EARNINGS FROM WAY BUSINESS. During the quarter ending July 31, an average of 325 miles of the Union Pacific Kailroad was in operation — The Superintendent's Report shows the following result

EARNINGS. Passengers, Freight, Telegraph and Mails.....\$723,755 5-

uel, Repairs, Offices, Conductors, Train s, &c. \$395,330 The net operating expenses on the commercial business for the quarter were \$237,866 50. The account for its COMMERCIAL BUINESS stands as follows:

Earnings for May, June and July......\$23,755 54 Net Profit..... The amount of Bonds the Company can issue on 325 miles, at \$10,000 per mile, is \$5,200,000. Interest in gold, three mouths, at 6 per cent, on this sum, is \$75,000; add 40 per cent, premium, to corre-pond with currency earnings, is \$1.9,200—showing that the net earnings for it is quarter were mre than four times the interest on the First Mortgage Bonds on this length of road.

FIRST MORTGAGE BONDS. whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay
