Union Pacific Railroad RUNNING WEST FROM OMAHA ACROSS THE CONTINENT,

OF THE

THE Union Pasific Railroad Company have built a I longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sactamento by the Contral Pacific Company of California, and it is expected that THE ENTIRE GRAND LINE

ARE NOW COMPLETED.

to the Pariso will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-TRIED OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than FORTY MILLION DOLLARS IN MONEY ve already been expended by the two powerful con nice that have undertaken the enterprise, and there no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to se-cure the construction of the Union Pacific Railross, to cure the construction of the Union Pacific Railross, to develop and protect fits own interests, it gave the Com panies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The avail able means of the Union Pacific Railroad Company, de-rived from the Government and its own stockholders may be briefly summed up as follows:

Having thirty years; to run and bearing six per cent. currency interest at the rate of \$16,000 per mile for 517 miles on the Plains; then at the rate of \$45,000 per mile for 517 miles on the Plains; then at the rate of \$45,000 per mile for 50 miles through the Bocky Mountains; then at the rate of \$32,000 per mile for its miles through the Bocky Mountains; then at the rate of \$32,000 per mile for its research these bonds itspaid by the United States government, which also pers the company one-half the amount of its bills in money for transporting its freight, troops, mails, 4c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien.—The claims against the government since April of the current year amount to four and one-half times this interest 2.—FIRST MORTGAGE BONDS.

1.-UNITED STATES BONDS

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and no more, and only as the road progresses. The Trusters for the bondholder are the Hom. K. D. Morgan, U. S. Senator from New York and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in strict accordance with the terms of the law. 3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute donation from the government of 12,880 acres to the mile on the line of the road, which will not be worth ess than \$1 50 per acre at the lowest valuation 4.—THE CAPITAL STOCK. The authorized capital of the Union Pacific Railroad Company is \$100,000,000, of which over \$5,000,000 have seen paid on the work already done. THE MEANS SUFFICIENT TO BUILD

THE ROAD. Contracts for the entire work of building 914 miles Contracts for the entire work of building 914 miles of first-class railroak west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 500 miles/at the average rate of sixty-eight thousand and fifty-sight dollars (\$80,058) per mile. THIS WONWERFUL REMEDY was discovered an introduces about twenty years ago by Dr. S. Cheop sus, an eminent Egyptian physician.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies them in use. Thus he was led to think and experiment; and afterten years' study and labor, he presented to his fellow-man the wonderful Zingart Bitters. The effect of this preparation in the prevention and cure of disease, was so mistrellour and automabing, that the most flattering many states are the study of the second of the second

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of rosts and herbs, so nicely concected that every organ is acted upon any put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Dysentery, Scrofula, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia, Female Irregularities, Dyspepsia, Flatulery, Colic, &c.
