500 MILES

OF THE

Union Pacific Railroad

RUNDING WEST PROM OMAHA

ACROSS THE CONTINENT.

ARE NOW COMPLETED.

THE ENTIRE GRAND LINE

FORTY MILLION DOLLARS IN MONEY

1.—UNITED STATES BONDS

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and no more, and only as the road progresses. The Trustees for the bondholders are the Hos. E. D. Morgan, U. S. Senator from New York, and the Hon. Cakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in strict accordance with the terms of the law.

3.—THE LAND GRANT.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is \$100,000,000, of which over \$5,000,000 have been paid on the work already done.

THE MEANS SUFFICIENT TO BUILD

THE ROAD.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 500 miles), at the average rate of sixty-eight thousand and fifty-eight dollars (858,068) per mile. This price includes all necessary shops for construction and repairs of cara, depots, stations and all other incidental buildings, and also locomotives, passangier, baggage, and freight care, and other requisite rolling-stock, to an amount that shall not be less than \$5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be \$00,000 per mile.

The Total Cost of Eleven Hundred Miles

will be as follows:

Eleven Hundred Miles:

FUTURE BUSINESS.

The most s) eptical have never expressed a doubt that when the Union Pacific Enlirond is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent, will be one or the wonders of railway transportation: and as it will have no competitor it can always charge remainerative rates.

EARNINGS FROM WAY BUSINESS.

During the quarter ending July 31, an average of 325 niles of the Union Facific Railroad was in operation — the Superintendent's Report shows the following result

Miscellaneous.

THE Union Pleife Relirond Company have built a leagur line of relirond in the less sujetions month than was ever built by any other coppeny in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed unpidly seate and from Sacremento by the Central Pacific Company of Cultiornia, and it is expected that to the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-THIRD OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND-MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than

SOLDIERS' AND SAILORS' ORPHANS, Incorporated by the State of New Jersey, APRIL 8th, 1867

have already been expended by the two powerful com-panies that have undertaken the enterprise, and there is no lack of funds for its most vigurous preservation. When the United States Government found it mecessary to se-cure the construction of the Union Parisic Editrou, to develop and spotest its own interests, it gave the Com-panies authorized to build it such ample aid as should resider its speedy completion beyond a doubt. Thenvail-able means of the Union Pacific Estimat Company, de-rived from the Government and its own stockholders, may be briefly summed up as follows: Having thirty years to ran and bearing six per cent. currency interest at the rate of \$16,000 per mile for 517 miles on the Fisias; then at the rate of \$45,000 per mile for 150 miles through the Rocky Mountains; then at the rate of \$25,000 per mile for the remaining distance, for which the United States takes a second Hen as security. The interests on this bonds is paid by the United States government, which also pays the company enchair the amount of its bills in money for transporting its freight, troops, math, &c. The remaining half of these bills is placed to the company 'spredit, and forms a sinking fund which may finally discharge the whole amount of this lisn.—The claims against the government since April of the current year amount to four and one-half times this interest

this terrible discase should be freely and persistently sued.

All pathologists now age that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly sit other maladies, especially the different forms of fever.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organisof excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon ann put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhea, Dysentery, Scrofnia, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaenia, Femake Irregularities, Dyspepsia, Platulency, Colic, &c.
