We have lately read much about the horrid consequences which Copperheads see flowing from Universal Suffrage in the South; and are daily entertained with disquisitions about the extreme ignorance of the blacks, their brutality, their unfitness for the elective franchise, &c., &c. When the Reconstruction measures first passed, many of the most conspicuous Rebel leaders expressed a willingness to re-organize under them, being confident of their ability to control the votes of the Blacks; and they put themselves or record in favor of admitting them to Suffrage in the South, where their numbers, their labor, and their interests constitute a large element in the State, and require representation for their own protection. It was only after the Rebel leaders, North and South, found that the Negroes would not vote in their interest, that they started the was all a matter of calculation: and their course has revealed and proved their utter and shameful hypocrisy.

They are never afraid they cannot succeed in business; they don't become sed and discompany of ladies, and look you and them right in the company of ladies, and look you and them right in the as e-mone of your devineat looks or any other meanings about them. I do not mean those who keep the or gans inflamed by running to excess. These will not only ruin their constitutions, but also those they do best ness with or for.

How many men from badly-cured diseases, from the effects of seli-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiory, lunary, persayins, spinal affections, anticide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever ampected, and have dectored for all but the right one.

Diseases of these organs require the use of a direction—HELMBOLD'S FLUID EXTRACT BUCHU is the great Directic, and a certain ture for disease of the Bladder, Kidneys, Gravel, Broppy, Organic Weskness, Female Complaints, General Debility, and all diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating and no matter of how long standing.

It no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.
