EDUCATIONAL.-Last week a meeting of the Presidents and friends of the principal colleges of the State was held at Harrisbug, at request of the State Superintendent, to confer upon the propriety of consolidat ing the educational interests of the State, under a general State system, by the creation of an Educational Department, charged with the supervision of Colleges and Common Schools. A committee, of which Rev. Dr. HAY, of this place, was a member, reported a Bill to be submitted to the Legislature having this end in view. Among other things, it proposes an annual appropriation of \$3,000 to each of the Colleges complying which each college is to issue a scholarship for every \$50 thus appropriated. These scholarships are to be divided among the different public schools of the State, and, as the several county superintendents, with such other persons to constitute a board as a law examination, the pupils will be transferred from the public schools for a regular collegiate course of education in the many collegiates and 23 with the collegiate course of education in the many collegiates are collegiated as a collegiate course of education in the many collegiates are collegiated as a collegiate course of education in the many collegiates are collegiated as a collegiate course of education in the many collegiates are collegiated as a collegiate course of education in the collegiates are collegiated as a co from the public schools for a regular collegiate course of education in the several colleges receiving this appropriation.

Considerable alarm prevails lest it may prove to be the much dreaded Rinderpest.

> IMPROVED STOCK .- On our 4th page will be found another of D. P. F's. interesting Agricultural Letters. It discusses the question of the most feasible method of inroducing Improved Stock into the County started a few weeks ago by the suggestion of 'A Farmerg' that the directors of the Poor take the matter in hand. D. P. F. is one of our most intelligent practical Farmers whose articles are always readable and suggestive. He prefers that the "Agricultural Society" move in the matter, or that a joint stock company of Farmers be organized if the Society does not feel itself able to purchase the necessary stock. It is an important subject, and we should be glad to have the views of our Agricultural friends on it.

MORNING GLORY STOVE .- Great im. provements in Stoves have been made within the last few years by scientific men, who have directed their attention to the work of securing the greatest amount of heat from a given quantity of fuel, and it is now admitted on all hands that the base-burning stoves are beyond all question the most economical and comfortable. Of the base-burning stoves, it is also now admitted by all who have tested them, that the MORNING GLORY is equally beyond question the MOST ECO-NOMICAL, and most desirable-consumwill meet, in full dress, on the 22d of Feb- ing the least coal, easily managed, free from ruary, in Arendtsville, at 9 A. From Benrancis Western, Esq., Depot Master of Sout Royalston, Mass. "In the spring of 1852 was severely afflicted with a hard, dry cough, with its usual accompaniments of nights awasta, completely prostrating my nervous system, and producing such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hegies of sver upovering, as had also my friends. At this singer of matters I was prevailed upon through the infinence of a neighbor to try wister's Baisam of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night swents described me, hope once more elated my depressed splitts, and soon I had attained my wonted strength and vigor. Thus has this Baisam, as has often been remarked by persons conversant with the above facts, literally snatched me from the yawning grave. You are at liberty to use this for the bonealt of the afflicted."
