New milch cows should be carded daily.-They like it and it pays. --- The potato is a great absorber of potash. Therefore wood ashes are a good manure for it. --- If the roots of trees are dipped into water just before planting, the earth that sticks to them will give immediate support to the small fibres. -John Johnson says farmers must give special attention to sheep and cattle keeping if they want to make grain growing most profitable -Calcined plaster is as good a fertilizeras the uncalcined. But it is usually wasted after its use in the arts. --- Some one says if salt is kept before a horse in the stable, he will not gnaw his manger. Trial will tell.---Root crops not grain, are the thing for young orchards. They do not steal so much tree food.-Toads are capital helpers in taking care of vine patches. Lay boards between the rows to shelter them in the daytime, and they will make a carnival of the bugs at night,set up the reverse way from which they grew will last much the longer .- It is difficult to spoonful of chloroform, in twice as much mucilage, is a good remedy for either.—

Rich milk is not the heat for colvers.

Rich milk is not the heat for colvers.

Hall TY DIFFERENT SHADES, all in liquid form the same shades, all in powder form. We advise the use of the Blacks, Browns and Drabe, in the powder form. For sale by all Druggists and Designs and at the Manufactory, Boston, Mass. Rich milk is not the best for calves .-butter cow is not a good stock cow. Carrots are recommended for horses, to aid digestion, and tomatoes for cows to improve and increase the milk.—Feed stock regularly and cut and cook food as much as is possible. Few farmers do it. --- Mangers should be low, and stables well ventilated and well lighted. Many horses are made blind by being kept in the dark.—Insects do not in- Official History of the War. fest very late sown peas as they do early ones -Stewed pumpkin as a poultice has been found of great value in reducing inflammatory rheumatism. —Pork and beans are the most nutritious food for the money that can be found. Three cents worth will give a hearty meal. —Smoke from rags, dry wood or corn found of great value in reducing inflammatory meal. ---- Smoke from rags, dry wood or corn cobs, is better than from tobacco in pacifying bees to remove honey, etc.—Chicago Ad-

MEDICINAL USES OF THE ONION. -Those who form their opinion of the onion by its TMPORTANT ANNOUNCEMENT!value as a perfume for the breath should know of its worth in remedial science, lest they do that estimable vegetable injustice. A correspondent testifies and is corroborated by others—that raw pounded onions immediately applied to the bite of poisonous snakes, or the sting of bees, etc., will extract the poison and largely prevent pain and inflammation Quite probably they would in like manner be of service in the bite of a mad dog. As many mothers know, a syrup made by simmering together sliced onions and honey, or sugar, is invaluable in coughs and attacks of croup, and has saved many a child from probable death. They are also excellent for colds, when eaten raw with a little salt or vinegar. Of the use of onions in epidemics a orrespondent of The Scientific American ears this testimony

"In the spring of 1849 I was in charge of one hundred men on shipboard, with the cholera among the men. We had onlone, which number of the men ate freely. Those who lid so were soon attacked, and nearly all died. After reflection I came to the conclusion that on one should never be eaten during the prevalence of epidemics, for the probable reason that they absorb the virus and communicate the disease, and that the proper use for them is sliced and placed in the sick room. and replaced with fresh ones every few hours, I have found that onlons placed in the room where there is small pox will blister, and de-

J. R. BARRETT & CO., Preprietors,

X. 1866. L. THE GREAT

Zingari Bitters. THIS WONWERFUL HEMEDY was discovered an introduced about twenty years ago by Ir. N. Cheopsus, an aminent Egyptian physician.

He had long seen and feit the want of some remedy which would strike at the root of disease, and so prevent much of the sunfering which the human family was then compelled to endure.

This great question was presented to his mind every day in vividcolors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years' study and labor, he presented to his fellow-manthe wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellourand astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheopsus, the Public Renefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholers, both as a preventive and curative measure, and with such great success, that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marveilous force to cholers, and therefore any remedy that will protect as against his terrified disease should be freely and persistently sued.

All pathologists now agree that the cholera poisonacts THIS WONWERFUL BEMEDY was discovered an

sued.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the exceeding the blood, and that any combination which acts on the exceeding organs, and keeps their in working order, must prevent a sufficient accumulation of the poison to exert listerrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fever.

The Zingari filters is jout such a remedy as the above conditions require. It acts on the organism excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon ani put in tons. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following discases have been cured by it: Cholera, Disrrhama, Dysentery, Scrofula, Numerous cases of the following diseases have been cured by it: Cholera, Diarrhosa, Dysentery, Scrofula, Typhoid and Typhus Ferer, Ferer, Ague, Nervous Debility, Anaemia, Female Irregularities, Dyspejsia, Flatulency, Colic, &c.
