> THE UNION PACIFIC RAILROAD COMPANY offer a limited amount of their FIRST MORTGAGE BONDS AT

PRINCIPAL AND INTEREST PAYABLE IN GOLD. The Great Pacific Railroad Line, extending 1721 miles rom Omaha, on the Missouri River, to the tide-waters of the Pacific Ocean, is being built by two powerful Comanies-THE UNION PACIFIC, beginning at Omaha, buildng West, and the Central Pacific of California, beginning at Secramento, building East, until the two reads Both Companies have prosecuted the work with great

vigor, the Union Pacific having already expended over THIRTY MILLION DOLLARS. and the Central over Twenty Millions, upon their respo tive parts of the undertaking. THE UNION PACIFIC naterials for two hundred miles more upon the ground, and one hundred additional miles are ready for the track. They will have a much larger force employed this year than ever before, and it is expected that between

PAR.

800 and 900 MILES will be in operation during 1868. There seems to be no easonable doubt that the distance between Omaha and scramento will be traversed by rail in 1870. THE GOVERNMENT GRANTS 12,800 acres of land, and its Bonds to the average amount of \$28,000 per mile, to aid in the construction of the line, and authorizes the issue of the First Mortgage Bonds now ofered for sale, to the same amount and no more. The lovernment takes a second lien, and gives to the First Mortgage Bondholders a prior lien for their security, to which a large paid up capital is added. The Bonds capot be issued except as each section of twenty miles is accepted by Government commission,, so that they always represent a real property.

It is universally admitted that on the completion of the Union Pacific Railroad, its through business will

make it one of the most profitable in the world-but its cay or local business is already several times the inter est on its bonds; so that, if not another mile were built. they would be a secure investment. THE NET EARNINGS for eight months of last year on an average of 386 miles are officially reported at \$1,-069,136, while the interest on all the Bonds it could issue on that length of road for that time, reduced to currency, was only \$345.856 The amount paid by the Government for the transpo tion of troops, munitions, stores and mails has been, and doubtless will continue to be, much more than the EWING MACHINES nterest on the United States Second Mortgage Bonds.--

fit is not, the charter provides that after the road is empleted, and until said bonds and interest are paid, at east five per cent, of the net earnings of the road shall s applied to such payement. The Union Pacific Bonds are for \$1,000 each, and have oupons attached. They have thirty years to run, and ear annual interest, payable on the first days of Janu ary and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PERCENT., AND IT IS BELIEVED THAT THEY WILL SOON BE AT A PREMIEW The Company have but a very limited supply of their Bonds remaining on hand, but any subscriptions accept ed to a greater amount than can be filled from Bonds now in the Company's possession, will be supplied from the New Bonds to be issued on that portion of the rose completed in the Spring, in the order in which they are

DODGES' PATENT OHIO AND BUCKEYE,

WORLD'S REAPER & MOWER. II AVING had considerable experi-AVING had considerable experiments of the sale of Resping and Mowing Machines in the last few years. I have made it a point to offer no machine to the farmer that will not when thoroughly tested give general satisfaction, and hence have declined the agency for all but what I regard the very best in the market. I now offer to the farmer the coming Season, two of what I consider the best machine in was—Last season I sold thirty-five of the OHIO & BUOK MYE Patent which have given entire satisfaction. As machine has been returned, usither has there been any difficulty with any one to whom they were sold—all paying for their machines promptly. Certificates from those who have purchased, could be procured but I deem it unnecessary—but for information would refer those wanting machines to any of the following geatlemen who purchased and have been using these machines. New Oxford on the east, whereon is erected the build of the New Oxford Institute, and laif out in Build Lots, containing one fourth of an Acre of ground en-fronting the Turnpike and High street, and extendi-the town eastward. is an in a prime state of cultivation, and will be sold en-tire or in parcela, as may suit purchasers.

The town of New Oxford is a prospering and handsome village, on the line of the Gettysberg and Hanover Exi-road, 10 miles from Hanover, proverbially healthy, and a favorite retreat, in the hot season, of citisens of Balti-more, with which city there is communication by rail-road twice a day, (Sundays excepted,) in about 3½ hours. Washington is about 5 hours and Philadelphia 6 hours distant.

Daniel March,

This machine has been awarded medals and first Premiums by the Pennsylvahia. Iows and New York State Fairs, and by hundreds of County Fairs in all parts of the county, including the Adams County Pairs, having received the first Premium at Bendersville in the fall of 1866, and at Gettysburg in 1867, as the best on exhibition.

ME. WH. WIELE:—Last year I purchased one of E. Ball's WORLID'S REAPERS, and used it last harvest in in cutting my own Brain and Grass and some of my neighbors, and have no healtation in saying that it gave me more satisfaction as a combined machine than any I have ever used, sithough I have tried some seven or eight other machines. I regard it the BEST machine in market, and do not healtate to recommend it as such to any person wanting a first-class machine.
