brought a large portion of the crop into WHEAT.—The condition of wheat, as shown in the July returns, is above the average for last year in all the States except Vermont, Connecticut, the Carolinas, Georgia, Florida, Alabama, Mississippi, Texas, and Nebraska. The season has been peculiarly favorable to the growth and ripening of this great bread crop in all except the southern States. The favorable reports are so numerous, in the western States especially, that it is unnecessary to

Exceptions to this showing are frequent prevalent. Some loss from the same cause resulted in Maryland and in the similar latitudes in the west. In a few localities loss from lodging is reported. Unusual exemptions of the latest styles, sufficient to meet the public mand. His borses are all good, without spot or bitah, and perfectly reliable—none of your "old controlled." ports of damage from freezing coming only comfortable equipments furnished. from northern Vermont, some portions of Parties, large or small, can get just what they on the most accommodating terms. belt. Very few accounts of destruction by the midge are received. In Lebanon county, Pennsylvania, this insect is charged with taking one-third of the crop. In Clinfrom insects. In Queen Anne county, Maryland, the extreme heat shriveled the hickes and Hacks for Funerals. grain in ripening, leaving it light and

In the Miami valley thousands of acres our establishment. of wheat just ripening have been destroyed by floods, and other crops suffered from the same cause. Other sections of the State were visited by destructive rains at the same time, and much injury resulted to A N N O N 'S MARBLE WORKS wheat, corn and other crops. With a sucocasful harvesting of the spring wheat it may safely be declared, in summing up the ocal reports, that a larger number of bushels of wheat, by many thousands, will be grown in the United States in 1868 than any pre-

Rye, cats, and barley promise abundant crops; no serious drawbacks are reported, and few complaints of bad condition are received

Potatoes, so exceptionably unproductive last year, are in unusually fine condition, and the average is increased in every State except Rhode Island—the natural result of extremely high prices of last year's crop. , Fruit is váriable; apples and peaches less promising than usual. Vermont, New Jersey, Delaware, Maryland, Virginia, Arkansas, Missouri, Iowa, Illinois, Indiana, Kentucky, and West Virginia, make a worse . record than other States as to apples .eaches will be less abundant than apples New Jerey, Maryland, and Delaware pro-Michigan showing a considerable reduction. A fair promise of grapes is indicated. Sorghum is generally doing well in th west; not so well as usual in the middle belt of southern States.

## THE CATTLE DISEASE.

ITS DAVAGES IN INDIANA-MORE THAN ONE HUNDRED COWS DEAD. A singular and fatal disease has broken out among the milch cows, in New Albany, Indiana, and adjoining counties, where Texas cattle have been pastured or frequently driven. Up to 27th ult., not less than one hundred cows have died in the city | DERSONS desiring of investing, and realizing

It is believed this disease has been brought by the Texas cattle, as in all the infected Gettysburg National Bank. istricts these cattle have either been herded or driven. It is ascertained that upon all the cows that have died there are immense numbers of ticks and lice, such as are always to be found upon the Texas cattle .-These ticks and lice are generally found upon the bag or udders of the cow, or in the groins near the bag. The ticks are much larger in size than the ordinary wood tick of this section, and the lice of the same kind as are always found upon the Texas cattle brought here.

These ticks or lice, it is believed, poison the blood and cause inflammation and par- NATIONAL BANK. tial congestion of the lungs and pleura .-This congested state of these vital organs is noticed in all cattle opened after death. It is noticed that the cows attacked by this singular disease are all affected in the urinary organs, the urinary discharges being almost entirely suppressed. An exami-

nation of several cows after death shows the bladder to be greately distended, and filled with dark or blood-colored matter. -In some cases the urinary discharges have been very black, and coagulated blood have been found.

Persons wishing information in regard to U. S. Bonds and Stocks of all kinds, are invited to give us a call been found. The symptoms of attack are in all instances the same. First the milk begins to

fail. Then the animal droops its head near the ground, the ears also drooped and moved with apparent pain-the head, when opportunity offers, is pressed against any hard or cold substance. About the second day of the attack trembling of the flanks and hard breaking ensue: the animal becomes very weak and its legs bend and are unsteady under its weight; there is a disposition to lle down and almost immediately arise, and this continues until the third day, when the disease usually terminates fatally, few cattle living into the fourth day after the attack. Only cows have so far been attacked. A Chicago (Ill.) telegram of the 14th says: There is considerable excitement among cattle sellers and buyers in this city, in con-

sequence of a disease that has recently broken out among beef cattle in the ceniral part of the State. Out of several lots of cattle received here

by the Illinois Central railroad, and purchased and shipped east day before yesterlny, seven head died on the cars between ere and Pittsburg. Dealers owning them have telegraphed to the Union yards here requesting agents to buy no more cattle here. A general panic is occasioned mong the cattle men in consequence. overnor Fletcher, of Missouri, has issued proclamation notifying all persons en. gaged in driving cattle into that State that,

y provision of law, such cattle must be purpose, and if found to be diseased or dismpered, "or in a condition to communi cate any contagious or infectious disease of istemper, called or known as Spanish or Texas fever" must be taken out of the State y the route on which they were driven in.

THE GREAT CHOLERA

THE GREAT, CHOLERA PREVENTATIVE. THE highest market price will be

> THE GREAT Zingari Bitters. THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physician. He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

X. 1866. L.

which wome strike at the root or disease, and so prevent much of the suffering which the human family was then compelled to endure.

This great question was presented to his mind every day in vivid colors as he moved among the size and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was led to think and experiment; and after ten years' study and labor, he presented to his follow-map the wonderful Zinger Bitters. The effect or this preparation in the prevention and cure of disease was so introllous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered is.—His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Vicercy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success, that it has been intoluced into nearly all the general hospitals of the old world.

The all saving that an august of revention is worth.
