Probably never before in the whole bistory of medicine, has anything wor no widely and a deeply upon the confidence of mankind as this excellent remedy for pulmonary complaints. Through a long series of years, and among toward of the races of men it has become better known. The noif-retines of a till has become better known. The noif-retines of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of the raw and to young children, it is at the same time the most effectual remedy that can be given for inciplent consumption, and the dangerous affections of the throat and image. As a provision against sudden attacks of Croup, it should be provided a lift this antitidate for them.

Although settled Consumption is thought incurable, still great mambers of cases where the disease seemed acticel, have been completely circed, and it is particularly and throat, that the most obstinate of them, under the Cherry Pectoral. So, and Public Speaker, flux great protection from it.
