BE CAREFUL WHAT MEDICINES YOU TAKE.

W/ HRN you are exhausted by over-work of head or hand, and feel the need of something invigorating, don't drink whiskey nor any intexleating thing, whether under the name of Bitters or otherwise. Such articles give just as much strength to your weary body and mind as the whip gives to the jaded horse, and no more. We are not recommending teetotalism in the interest
of any faction; but long and estended observation
teaches us that he who resorts to the bottle for rest
or recuperation, will find, as he keeps at it, that he is
kindling a firs in his bones which will consume like
the flames of percition. Turn from it. Take a tonic
that will refresh and not destroy. Dodd's Nervine is
