THE BEST.—Tonics have of late years (gained rapidly in public estimation, and are far more generally employed by first-class physicians than they once were. The resson for this is that it is a generally established fact that wholesome tonics used in moderation daily for years do not loose their virtue, neither do they injure the system. -They act in fact like air and exercise, and not as "medicines," which are intended solely for attacks of illness. The BITTER PRINCIPLES, especially those of vegetable origin, all possess the common property of stimulating the appetite, strengthening the nervous system, and of imparting strength. Women generally derive benefit from them even more than men, their system being more liable to debility and exhaustion .-We have again and again in our experience seen the good effects of tonics where the eyes had grown dim and the cheeks pale, and the entire frame showed every indica-

REMEMBERED FRIEND—I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I chammenced the use of DODD'S NERVINE without anybody advising it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine i ever found, and shall dontinue its see, for I am confident of entire recovery; I be taken only three bottles, and would not be with the many account.
