Probably never before in the whole bistory of medicine, has anything won so widely and so deeply upon the condence of mankind, as this accellent remody for pulmonary complaints. Through a long saries of years, and among most of the reaces of men it has resembligher and higher in their estimation, as it has become begiver known. Remolform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to midder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and inngs. As a prorision against anden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antiduct for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sump deathly, here been completely cured, and the patient restored to sump deathly the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them, under the Cherry Pectoral they subside and disappear.
