This distressing Affection—which renders life missrable and marriage impossible—is: the penalty paid by the violatine of improper indigenose. Young persons are too apt to commit excesses from not being awars of the dreadful contequences that may ensue. Now, who that uncerstands the subject will pretend to deay that the power of procreation is lost sooner by those falling into improper habits timn by the prindent? Besides being deprived of the pleasure of healthy offigring, the most serious and destructive symptoms of both body and mind arise. Dr. J. addresses all these who have injured themselves by improper indulgence and solitary habits, which rule both body and solid, unfitting them for aither beasiness, study isociaty or marriage.

Lose of Memory, Conferein of Ideas, Depression of Splrits, Byil Forebodings, Aversion to Society, Sell-Diatrest, towe of Solitade, Timidity, &c., are seene of their declining health, insing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.
