THE PHILOSOPHY OF DR SCHENCK'S GREAT MEDICINES.—Will people never learn to know that a diseased liver and stomman recessarily disease the entire system? The plainest Frinciples of common sense teach this, and yet there are hundreds who ridicuise the idea, and continue in the course which aimost inevitably brings them permaturely to the grave. Living as the majority of the people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who findings to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act; the liver tails to perform its functions, dryspepsis and its attendant evils follow, and still the sunering individuals persist in clinging to the thoroughly exploded ideas of the past. Dr. Schenck's medicines are recommended to all such. They bring sure and certain relief wherever they are used as directed, and all that is necessary to establish their reputation with every alting man or woman in the land is a fair and impartial trial of them. Let those who are skeptical on this point, and who have permitted interested persons to prejudice them against these now celebrated remedies for consumption, discard their prejudices, and be governed by the principles of reason and common sense. If the system, is disordered depend upon it, in nine cases out of its in the seat of disorder will be found in the stomach and liver. To cleanse and invigorate the sond the principles of reason and common sense. If the system is disordered depend upon it, in nine cases out of its discondered depend upon it, in nine cases out of its discondered depend upon it, in nine cases out of its discondered depend upon the line in the stomach and liver. SUHENCK'S MANDRAKE PILLS.—The daily increasing demand for these pills is the best evidence of their value. Thousands upon thousands of boxes are sood daily. Why? Simply because they act promptly and efficiently. There is, afrer all, nothing like facts with which

There is, after all, nothing like facts with which to substantiate a position, and it is upon facts that Dr. Scheinck relies. Nearly all who have taken his medicines in accordance with his directions have not only been cured of consumption, but, from the fact that these medicines act with wonderful power upon the digestive organs, patients thus cured speedily gain fiesh. Cleaning the system of all impurities, they lay the foundation for a solid, substantial structure. Restoring these organs to health, they create an appetite. The food is properly assimilated: the quantity of blood and in the face of such a condition of the system all disease must be bunished.

Full directions accompany each of the medicines, so that it is not assolutely necessary that patients should see Dr. Scheinck personally, unless they destre to have their lengs examined. For this purpose he is at his principle office. North Saxth St., corner of Commerce, Philadelphia, every Saturday, from 6 A. M. until 1 P. M.
