KITZMILLER. Let us hope that the insane practice of administering poisonous evacuants in cases of indigestion, biliousness, constipation, and female debility, is almost out of date. When the Tonic Cathartic produced by Nature herself in the most valuable sanitary Spring in the world is reproduced by science, in the form of TARHANT'S RELTZER APERIENT, it is indeed midsummer madness to rack, relax and irritate the diseased or enfeebled system with drastic purgatives. This refreshing and decloue counterpart of a remedy prepared by the creative hand of the Omnipotent hauseous and sickening compounds heretofore used as laxives.
