SCHENCE'S GREAT MEDICINES.—Will people never learn to know that a diseased liver and stomach necessarily disease the entire system? The plainest Principles of common sense teach this, and yet there are hundreds who ridicule the idea, and continue in the course which almost inevitably brings them permaturely to the grave. Living as the majority of the people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered and refuses to act; the liver fails to perform its functions, dyspepsia and its attendant evils follow, and still the suberity invited in excession to be sooned to be successed to be sooned to be successed hands of the teading public as it gets.— CLOTHING Wholesale and Retail dealer in Indeed no theme presents itself that is HAS REMOVED Grain & Produce Business Next door to J.
