MARRIAGE, reflect that a sound mind and body are the most necessary requisites to promote communical happiness. Indeed, without these, the fourper upprompt hourly Cartens to the view, the mind becomes shadowed to despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

Feather Dressing and Renovating Machine,
The most successful patent of the kind ever offered to the public. And we venture the prediction
that it never will be excelled, for it proves to be
exactly what all conditions and qualities of Feathers, from entirely new to old and much worn,
need to render them as perfect as age, quality and
condition will admit of their being made.

The Cleansing is Done Entirely by Steam.

No fire coming near the Feathers, consequently
no possibility of burning, scorching, or otherwise
juring them. By this process all moths are destroyed and removed, the Feathers cleaned, the
fibres relieved from their matted position, giving
a bed an astonishing increase in bulk, often more
than one-half; also removing all disagreeable
scent which is so common to new as well as old
Feathers. In fact giving the appearance and essential qualities of New Feathers, and relieving them from all liability to moths by the removal of all gummy or giutinous matter from the
quill. Our facilities are such, that by short notice, we can take and return beds the same day, may
well dressed and ready for immediate use.

We warrant entire satisfaction or make no a
charge. All persons, especially laddes, are invited
to call and see the machine in operation, at Paxton's store room, on Baitimore street, and judge
for themselves.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has imbibled the seeds of this paniful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him from applying to those who, from education and respectability, can alone befriend him delaying till the constitutional symptoms of this borrid disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, dealness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fail in, and the victim of this awful disease becomes a horrid object of commiseration till death puts a period to his dreadful sufferings, by sending him to that undiscovered country, "from whence no traveler returns."

It is a melancholy fact, that thousands DIE victims to this terrible disease, through falling into the bands of Jgnorant or Unskillful PRETEND. EHS, who by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer mosuh after month taking their noxious or injurious compounds, and instead of being restored to a renewal of Life, Vigor and happiness, in despair leave him with ruined Health, to sign over his galling disappointment.
