Immediately Cured, and Full Vigor Restored.

This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper induigences.— Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny, that the power of procreation is loss sooner by those failing into improper habits, than by the prudent? Beside being deprived of the pleasures of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, and Wasting of the Frame, Cough, Consumption, Decay and Death. DR. JOHNSTON. Member of the Royal College of Surgeons, London. Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous amount enlicated, having a fingular appearance about the eyes, cough and symptoms of Consumption. YOUNG MEN who have injured themselves by a certain prac-tice, indulged in when alone, a habit frequently

and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and employments of life, by the consequence of deviating from the path of nature, and indulging me certain secret habit. Such persons must, before contemplating MARITAGE,
reflect that a nound mind and body are the most

necessary requisites to promote commissal mappiness. Indeed, without these, the journey through life becomes a weary pigrimage, the prospect hourly darkens to the view, the mind becomes shanlowed to despair, and filled with the melancholy reflection that the happiness of another is blighted with our own.

The many thousands cured at this establish ment, year after year, and the numerous surgical Operations performed by Dr. Johnston witnesset by the representatives of the press and many other persons, notices of which have appeared again and again before the public, besides his standing as a genteman of character and responsibility, is a sufficient guarantee to the affilieted.

EVEN THEM SECTION OF THEM SKIN DISEASES SPEEDILY CURED. ALYER'S SARSAPARILLA. FOR PURIFYING THE BLOOD.

THE reputation this excellent medicine enjoys. Is derived from its cures, many of which are truly marveilous. Inveterate cases of Scrotulous disease, where the system seemed saturated with corruption, have been purified and cured by it.—Scrotulous affections and disorders, which were aggravated by the serofulous contamination until they were painfully afflicting, have been radically cursed in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses. Scrotulous poison is one of the most destructive enemies of our race. Often, this unseen and unfeit tenant of the organism undermifies the constitution, and invites the attack of enfeebing or fatal diseases, which excites a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on a favorable excasion, rapidly develops into one or the other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of

Col. No man in the country is better prepared, by long and intimate intercourse with public men of all parties for the last and most interesting quarter of a century, to furnish material for the future historian. Home Courtesies .- Now, you young ellow at the table reading the evening saper, and nodding in a surly way to your other and sister, take a test. If your clothes breathed a delicious fragrancesay of heliotrope or roses-but would do so only when you were at home, or only when you went abroad, which would you choose? Would you smell sweet at home or when you went away from home: Would you have a perpetual climate of rare odors in your own house, or elsewhere? Of course you would have it as home for your own comfort and enjoyment, you curmudgeon, if for nothing else But what is domestic courtesy but the breath of heliotropes and roses at home? It is as much for your own pleasure that you should be pleasant as it is for that of others. The happiest household in the world is that in which courtesy is new every morning and fresh every evening, like celestial benedictions.
