"Them pigs," said the loquacious exhibitor, "were dropped the 1st day of May."—"What do you think of that?" said I to a sensible looking farmer at my side. "Why he hadn't ought to lie about it," said he, and we passed on. The Cheshires are white hogs almost entirely hairless and tailless. "This," said the exhibitor, "shows the fineness of the pork." I didn't stop to ask him whether he had read "Darwin" or not, but he seemed certainly to be imbued with the belief that a hog tailless and hairless was a finer order of being than one "haired" Any person who wants a Fine Fitting Suit GO TO CUNNINGHAM'S On Chambersburg Street. There are always more or less obstructions of the stomach and great torpor of the, bowels, being clogged up with vitated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially secessary. There is no cathartic for the purpose equal to Dr. J. ADVISES CONSUMPTIVES TO GO TO

FLORIDA IN WINTER.

Maving for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption. I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to bealthy soundness. The first and most important step is for the patient to a void taking cold, and the cold reliable and swelling of the Blood, and the only reliable and swe having for the last fairty-inveyears devoted my whole time and attention to the study of lung diseases and consumption. I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more Northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicine, were getting well.

One hundred miles further down the river is a point which I would prefer to Palatka, as the temperature is more even and the air dry and bracing. Mellonville and Enterprise are located there. I should give a decided preference to Mellonville. It is twombles from river or take, and it seems almost impossible to take cold there.—The tables in Florida might be better, and patients complain at times but that leaved size. CHUESE CALL.

JOHN Rose was wish a trace and the dollars. The Respirometer will be charged five dollars. The Respirometer declares the exact condition of the lungs, and patients can resulty learn whether they are curable or not. But I desire it distinctly understood that the value of my medicine depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not so liable to take cold, yet no one with diseased lungs can bear a sudden change of atmosphere without the emai tubes.

Full directions in all languages accompany my medicines, so explicit and clear that any one can use them without consulting me, and can be bought from any druggies.
