D. H. KLINGEL Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption. I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter, is Florida, well down in the state, where the temperature is regular, and not subject to such variations as in more Northern lastitudes. Plaika is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicine, were getting well.

One hundred miles further down the river is a point which I would prefer to Palatka, as the temperature is more even and the air dry and bracing. Nellomville and Enterprise are located there. I should give a decidedpreference to Mellonville. It is two miles from river or lake, and it seems almost impossible to take cold there.—The tables in Florida might be better, and patients complain at times but that is a good sign, as it indicates a return of ampette and when the aying inflammation. /It makes no difference the country is not far short of \$200,000,-BEARING 7 3-10 INTEREST, OAL ach may be, THE DYSPEPSIN will give relief at at lowest prices. Certainly there is. My advice to such is, and ever that has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regularly at that point, by means of a thermometer. Let such a patient take its exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of streatment is pursued. The fact stands undisputed on record that Schenck's Pulmonic Syrup, Mandrake Pills, and Scaweed Tonic have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.
