TO LIBRARY IS COMPETE WITH-OUT IT.—TESTIMONY OF SIXTEEN THOUSAND PURCHASERS.—MAGNIFICENT WORK OF HISTORY!
—A WHOLE LIBRARY IN ITSELF!—COST \$11,000—70
MAPS—700 ENGRAVINGS.—A HISTORY OF ALL NA-

From the earliest period to the present time, the history of every nation, ancient and modern, being separately given. By S. G. Goodnich, author of several works of History Charles, the constitution of the property of the constitution of the cons

given. By S. G. Goodder, author of several works of History, 'Peter Parley's Tales,' &c.

It is believed that the above work will be very acceptable to the American public. It is the result of years of toil and labor, assisted in his researches by several scholars of known ability, and has been got up at a great expense by the proprietors. No pains have been spared in the execution of the Illustrations and Maps, which are prepared expressly for this work. Indeed, all the other historical writing of Mr. Goodrich, sink into insignificance, when compared to this, the result of his riper and maturer years. compared to this, the result of his riper and maturer years. It is admitted that one hundred dollars could not purchase the same matter in any other shape, and the publishers confidently expect, in consideration of the great literary value of the work, the large sum expended in preparing value of the work, the large sum expended in preparing it for the press, and the exceedingly moderate price at which it is offered, that it will be favorably received by every lover of good books. Many of our first scholars, divines and gentlemen, who have examined the work, have given it their unqualified approbation and commendation, which it richly deserves.

THE BOOK OF THE AGE.—"'TIS MUCH TO SAY, YET TRUTH TO SAY IT."—RECLLECTIONS OF A LIFETIME. OR MEN AND THINGS HAVE SEEN IN EUROPE AND AMERICA

I HAVE SEEN IN EUROPE AND AMERICA,
By S. G. Goodrich, the veritable "Peter Parley," author of
"The History of all Nations," &c., &c. In two volumes,

Steel Portrait of the Author. Price, Black or Scarlet
Cloth, \$300; Scarlet cloth, gilt edges, \$4; Half calf, marble edges, \$5; Gilt Edges, \$7.

This work embraces the prominent public events of the
last half century, both at home and abroad; a complete
autobiography of the author—his early days, clucation,
and literary career; and an amount of original, curious,
and valuable personal incident, anecdote and description,
seldom, if ever, met with in a single work. It is the au-

and valuable personal incident, ancedote and description, seldom, if ever, met with in a single work. It is the author's life-long work, and nothing superior if equal to it in blended amusement and instruction, has ever been published. Mr. Goodrich is the author and editor of 170 volumes, of which seven millions of copies have been sold! and this the great work of his life time, embodies the condensed substance of his ample literary and practical experience; the war with England in 1812-14, in which Mr. Goodrich was a private soldier; the Hartford Convention, whose operations took place under his immediate observation, and with most of the members of which he was pertion, and with most of the members of which he was pertion, and with most of the members of which he was personally acquainted. Embracing curious and interesting details respecting old Jeffersonian Democracy, Old Federalism, and Connecticut Blue Lights; curious and marvellous events connected with the rise and progress of religious sects in the United States; with descriptions of the French Revolution of 1838, and Louis Napoleon's Coup d'Etat, both of which the author witnessed. Also, a full count of the 'Peter Parley's Tales,' of which four milions have been sold.

In the course of the work will be found pen and ink

IGHTNING RODS! Armitage's Pa-TENT OF SUPERIOR ELECTRIC MAGNET LIGHT-NING RODS, it is now admitted on all hands, that every building to be secure from the destructive influences of lightning should be provided with a good conductor.

The large number of worthless rods that are put up makes it necessary for purchasers to examine the merits of the different rods offered for sale.

The public need but to examine Armitage's rods to be convinced that they are constructed upon not only the best, but the only safe principle of any rod in use.

Over 6000 of these rods have already been put up without the loss of a dollar's worth of property by lightning in any building to which they have been attached, which is the best evidence that they are perfectly secure. I have a few on hand which I will sell for less than half of the retail price asked by Armitage, to close out my stock. Call soon at Colon's Book Store, Huntingdon, Pa., where they can be had of

interesting and important one of Natural History. The books which have heretofore been published on this subject, have been adapted to mere children, or to those who made it a thorough study. Hence, very few of the millions of readers in this country have, within their reach, anything satisfactory upon this subject.
