THE HUNTINGDON GLOBE, A DEMOCRATIC FAMILY JOURNAL, DEVOTED TO LOCAL AND GENERAL NEWS, &C.

CORRESPONDENCE OF THE GLOBE.

The County Superintendency. On the 4th day of May, the School Directors of Huntingdon county will assemble in this place to elect a County Superintendent for the ensuing term of three years. We earnestly hope that these gentlemen, to whom has been confided the supervision and care of the schools of their respective districts, will come to the discharge of their duties with an ardent zeal, and firm resolve, to do the very best they can for their constituency. The official posts in our government will, at a day not far in the future, be intrusted to the generation now acquiring the rudiments of our language. In the education, intellectual and moral, of the uprising youth of the country, then, we have, or should have, a deep and abiding interest; that interest should incite us to the adoption of every plan and measure which may better and advance the condition of our well-devised system-and to the selection, for its working positions, men of the very highest order and qualifications. Teachers should be well skilled in all the various branches of their profession, but it is necessary that the recipient of the honors of the Superintendency, who is in fact, the head of the Common school organization of the county, should embody and possess, in an eminent degreee, all the requisites of a good teacher.

Then for the credit of Huntingdon county, which will acknowledge no superior in the intelligence of its citizens, or in the interest felt for general education, it is to be expected that the Convention of Directors will rise high above any local, personal or other prejudice, and be governed in their selection of an officer by high motives to advance the general OLD HUNTINGDON. good.

LETTER FROM OMAHA, N. T. Омана Сіту, N. T., April 13, 1857.

Steamboat Arrivals-Missouri river "on a high"-Capitol of N. T.-Omaha, Saratoga and Florence—" Sulphur Spring"— Claim Clubs—Claim Jumpers—Land office at Omaha open to preemptors.

Mr. EDITOR.-In my last I promised my next should be from Omaha. I now proceed to make good that promise. I arrived here about four weeks since, and during the interval have endeavored to "post" myself concerning the current events here. Since my arrival we have had several steam boats from "below." As I write the steamer "Silver Heels" is discharging her passengers and freight at the landing. The clerk of the 'Silver Heels" reports three hundred passengers sually high-the knowing ones here predict that in consequence of the large quantity of snow "up north" the "Big Muddy" will be higher during the present rise than it has been for many years. The Capitol building at this place is far advanced towards completion-the brick work of the third and last story is about complete, and about twelve thousand dollars worth of ornamental iron castings for the columns &c. are on the ground. Unfortunately the appropriation for its completion was defeated in last Congress, in consequence of the negligence, cupidity or ignorance of the delegate from this Territory -This however will not, we presume, retard the finishing of the building, as the "Sovereigns" here have determined to complete it and trust to future congresses to refund the amount expended. Omaha, Saratoga and Florence, dubbed the "Trio City," are situated upon a beautiful plateau six miles long, extending from the southern limit of Omaha to the northern boundary of Florence. Omaha was incorporated last winter, and the "City Fathers" are taking active measures to improve the city.-A first class hotel to cost seventy-five thousand dollars is now under contract, the builder of which is to receive a bonus of twenty thousand dollars from the city. Omaha has a population of about two thousand ; the people here claim twenty-five hundred, but this, I think, is a little too high. Florence has about eight hundred inhabitants. Saratoga (situated between Omaha and Florence) was but recently laid out. It belongs to the "Sulphur Spring Land Company." This Company has about three thousand acres of land and a large cash capital, and has taken measures to have two hotels crected in Saratoga. The "Trinity House," costing twelve thousand dollars is to be completed by the 1st of June next. The "Saratoga Hotel," is to be a first class house, to cost from fifty to seventy five thousand dollars, and to be completed by the 1st of January, 1858. The plans and specifications of the latter house are now here. They were gotten up in the city of Baltimore at a cost of three hundred dollars. There is a beautiful Sulphur spring upon the town site of Saratoga (hence its name) which is certainly stronly impregnated with mineral, fully ratified, and a Prussian vessel-the and said to possess valuable medicinal quali- first-had passed the Sound without paying ties. "Claim Clubs" are now organized throughout all the river counties of the Territory, designed to protect claimants in three reforms in every department. The English hundred and twenty acres. There has been considerable trouble in this vicinity caused by "jumpers." By the term "jumpers" is meant any person who "squats" on a "claim" the pre-emption laws of the United States .---The "Regulators" were called out a short cial tariff. time since and proceeded to several claims which were "jumped," brought the "jumpers" to this place, and after an "impartial" trial it was decided that they be sent over the great work. Claims within one to five miles of this place are selling at from one hundred to ten thousand dollars. He took it 'Claim Club laws," to be entered when the home and commenced retailing it in small quantities to his customers, all of whom were attacked with a strange sort of sickness, from which, however, they speedily recovered .--No one could account for this singular fact until the molasses barrel was pretty well drained and the head knocked out of it, when the whole community was astonished at the discovery of a negro child, about eight days old, inside the barrel. The child was lying in the bottom of the barrel in a state of partial putrifaction.

THURCH RASCALS.-SIX CENTS UREWARD.—Left my board, (at which he bas set with an air of self-importance, until his accounts amount to seventy-five dollars,) on Sunday, the 8th of February; be-tween the setting and rising of the sun, a certain animal in human shape, who calls himself MOSES NICKOLES. (he probably will assume another name,) described as follows, viz:

viz: Suid Nickoles had on, when he left, a black cloth cap,

viz: Said Nickoles had on, when he left, a black cloth cap, black coat and pants, none of which were much the worse of wear, and were not paid for, black straight hair, thir black whiskers, (if he has not shaved them off,) deep black eyes, black heart, and not in the right place, consequently; stout built, weighs about 180fbs, and is about 25 years old. This notice is not intended to have the scamp apprehen-ded, but to caution the public, and especially my brother Tradesmen, against the imposter. And to add insult to injury, I have every reason to be-lieve that the said Nickoles, influenced and decoyed from my employ, a young Irish boot maker, who also left in-debted to me some sixty dollars. Said Nickoles left sun-dry other bills unsettled, among which is one of \$S or \$10, due a poor negro woman for washing, which, of itself, sr-sufficient to brand the villian with infamy. He attached himself to the Church, to enable him more fully to prac-tice his rascality upon the people hore. He is a shoe ma-ker by trade, and works on women's work. So I bid you all beware of the black-hearted villian. DAVIS K. DUCK.
