MAPS—700 ENGRAVINGS.—A HISTORY OF ALL NA-From the earliest period to the present time, the history

From the earliest period to the present time, the history of every nation, ancient and modern, being separately given. By S. G. Goodren, author of several works of History, 'Peter Parley's Tales,' &c.

It is believed that the above work will be very acceptable to the American public. It is the result of years of toil and labor, assisted in his researches by several scholars of known ability, and has been got up at a great expense by the proprietors. No pains have been spared in the execution of the Illustrations and Maps, which are prepared expressly for this work. Indeed, all the other historical writing of Mr. Goodrich, sink into insignificance, when compared to this, the result of his riper and naturer years. It is admitted that one hundred dollars could not purchase the same matter in any other shape, and the publishers confidently expect, in consideration of the great literary value of the work, the large sum expended in preparing it for the press, and the exceedingly moderate price at which it is offered, that it will be favorably received by every lover of good books. Many of our first scholars, divines and gentlemen, who have examined the work, have given it their unqualified approbation and commendation, which it vielly chapmen. given it their unqualified approbation and commendation,

which it richly deserves.
