THE USES OF WATER.—The Syracuse Journal, in an excellent article on the use of water for the purpose of bathing and personal

Ono! it is the riches we keep that perish; that which we give away, abides with us forever; it impresses itself in our characters, and tells on our eternal destiny; for the habit of charity formed in this life will accompany us to the next. The bud which begins to open here, will bloom in full expansion hereafter to delight the eye of angels and beautify the Paradise of God. Let us, then, now, and on every fit occasion hereaf-ter, practice that liberality, which in death we shall approve, and reprobate the parsimony we shall then condemn."

STUFF TO MAKE A SOLDIER .- The best of bodies as best of minds, it appears, is necessary to make an officer for our Army. The

Tribune says: "The Military Academy at West Point has just been subjected to its annual examination, and a fact has been developed which is certainly worthy of attention, and which we notice did receive attention from one of the examiners. Of nearly one hundred cadets who entered the class addressed by him, hardly forty remained. Nearly two-thirds of those originally matriculated had been dismissed from the institution for breach of discipline, for deficiency in scholarship, or, perhaps, lack of health or robust enough to encounter the routine of the establishment."

Fourth of July Celebration at Coalmont.

At an early hour, commenced the assembling of the most numerous and respectable assemblage ever congregated at Coalmont, or Capt. J. S. Reed, formed in the square of the village, as per arrangement, for the reception of the Delegation by Excursion Train from Huntingdon. After the arrival of the Train, and the reception of the different Delegations by the Military, who performed admirably, until 11 o'clock, when the Military with the masses, repaired to the Grove, where a stage having been erected, seats provided, and table spread, an organization of the vast assemblage was made, by the selection of Levi Evans, Esq., President; J. T. Shirley, J. W. Evans and George Roads, Esqrs., Vice Presidents, and J. D. Gill and J. Simpson Africa, Esqrs., Secretaries. The Declaration was then read by EDWARD McHugh, Esq. The orator of the day, Gen. John Williamson, was then introduced, who acquitted himself in his usual eloquent style, alike honorable to himself and the day celebrated. The meeting then adjourned, and repaired to the well furnished table, and partook of the sumptuous repast provided by Capt. J. S. REED. After which a re-assemblage took place at the stand. Gen. WILLIAMSON was again called, and responded in an able and appropriate address. EDWARD McHugh, Esq., being called, responded in a fluent and eloquent speech. After which the committee on regular toasts, reported the following, which were read by J. Simpson Africa, and adopted unanimously amidst the most enthusiastic applause:

This is the name of the farm and the residence of WILLIAM A. STOKES, Esq., near Greensburg, Westmoreland county, Pa. And assemblage ever congregated at Coalmont, or it will well reward one, who has a taste for its vicinity. At 9 o'clock, A. M., the "Broad combining the beautiful with the useful, and Top Rifle Rangers," under the command of who takes an interest in the agricultural advancement of our grand old Commonwealth, to visit this highly improved and well ordered farm, and examine its appliances and arrangements. It was the writer's privilege, last week to be the guest of the gifted and gentlemanly proprietor of this beautiful seat, and to inquire into the system and detail of its management. The farm consists of 260 acres, west of and immediately contiguous to the borough of Greensburg, and is a lovely combination of rolling hill and smiling dell, with a small proportion of forest and copsewood. It is not only in the highest state of cultivation, but taste and science have lent such guidance to toil, as combine ornament and utility in a high degree. Nature has done much for this lovely and picturesque spot, and art has lent its plastic aid, so as to make it one of the loveliest in West Pennsylvania. The unique and tasteful mansion, of the Italian villa style, occupies a commanding site; and attracts the observation of the travellers upon the Pa. R. R. which sweeps around the eminence upon which the house is erected. The porter's lodge—the winding carriage way, the lawns and invirons of the mansion, with their terraces and walks, and trees, and shrubs, and flowers, all are in good taste, and make an impression of neatness and comfort without tawdry ostentation .-The view presented from the balconies or the bay window of the library, and especially from the eminence in the rear of the lawn, is one of the loveliest, most extensive and varied that our country presents. The pleasant village of Greensburg with its churches and spires and its magnificent Hall of Justice lies close on the foreground. To the right a verdant dale, dotted with dwellings and varied with meadow and grainfield and pasture, cornfield, sweeps for the south east .-To the left and in front the rolling surface of beautiful Westmoreland, extends far, far away in a landscape of indiscribable beauty. until it is framed in by the azure ramparts of "Chestnut ridge"—whilst through the gorges of this mountain the still more distant and dark heights of "Laurel Hill" are here and there visible. It is a prospect to be studied; and the longer the study the deeper the ad-

quehannah, or the wimpling waters of our own "blue Juniata." But it was rather of the farm, than of its surroundings that I had intended to write.— Mr. Stokes certainly deserves the thanks of galaxy of greatness, may his actions ever be his fellow-agriculturalists for the pains and held in grateful remembrance by his country- expense at which he has been to test the value of improved processes in agriculture. And I think if our farmers would visit Ludwick, they would see occular demonstration of the value of sub-soil drainage, sub-soil ploughing, a husbanding of manuring agents and ing stock. It is worth a ride to Ludwick, to cattle. How he manages to attend to a laborious and responsible practice at the law; and to see that matters on this model farm go systematically on, is a question which I would have been at a loss to answer if I had not known something of the talent, energy and executive ability of the man. As the proprietor of this beautiful estate was lately amongst us, and in his professional capacity made a highly favorable impression upon the

Western Town Making.

A gentleman recently returned from the West, relates to the Boston Traveller that in setting out early in the morning from the place where he had passed the night, he consulted his map of the country, and finding that a very considerable town, called Vienna, occupied a point of his road, but some 12 or 15 miles off, concluded to journey as far as that place before breakfast. Another equally extensive town, bearing as sounding a name, was laid down at a convenient distance for his afternoon stage, and there he propostravel at a good round pace until the sun had risen high in the heavens, and until he computed that he had accomplished more than twice or thrice the distance which he proposed to himself in the outset. Still he saw no town before him, even of the humblest kind, much less such a magnificent one as his map prepared him to look for. At length, meeting a solitary wood-chopper emerging from the forest, he accosted him and inquired how far it was to Vienna, "Vienna," exclaimed the man, "why you passed it five and twenty miles back. Did you notice a stick of timber and a blazed tree beside the road?—that was Vienna!" The dismayed traveller then inquired how far it was to the other place, at which he designed passing the night. "Why you are right on that place now," returned see about a mile farther on the road."-'Are there no houses built!" faltered out the traveller. "Oh, no houses whatsomever," returned the woodsman; "they hewed and hauled the logs for a blacksmith's shop, but before they raised it, the town lots were all disposed of in the Eastern States, and everything has been left, just as you now see it ever since."

A RAPID YOUTH .- A contemporary says he would be willing to put his young friend, R. H. Purdon, editor of the Fort Gibson (Miss) Revielle, against the fastest young American in any other State of the Confederacy. He is not yet nineteen years old; has been editing a newspaper for nearly four years; has courted and been accepted by at least a dozen of the most intelligent and handsome young ladies in Mississippi-did't marry either of them and last though not least, met the chivalrous and gallant editor of the Natchez Free Trader, James McDonald, in mortal combat, got wounded in the arm, returned to his post, and went to work as if nothing had happened. He will

AN EDITORIAL SANCTUM IN KANSAS.-The Kansas correspondent of the Richmond Enquirer, in a recent letter to that paper, thus describes the sanctum of the editor of the Weekly Herald, printed in Leavenworth City, Metropolitan police station-house, in White at the time he made it a visit:

It will not be amiss here to give you a sketch of the office as presented to the eye of a stranger from Louisiana. "A visit to the rioters, on both sides, had meantime barricaprinting office afforded a rich treat. Onenter- | ded the streets with carts, &c., and from be-

ing the first room on the right hand, three hind the bulwarks thus thrown up, they fired, law 'shingles' were on the door; on one side indiscriminately, upon the crowd. was a rich bed-French blankets, sheets, table cloths, shirts, cloaks and rugs, all to-gether; on the wall hung hams, maps, venison and rich engravings, onions, portraits, this story of bloodshed and outlawry.
and boots; on the floor were a side of bacon, The most terrific excitement prevails thro'and boots; on the floor were a side of bacon, carved to the bone, corn and potatoes, stationery and books; on a nice dressing case stood a wooden tray half full of dough, while the crockery occupied the professional desk. In the room on the left—the sanctum—the housewife, cook and editor lived in glorious unity-one person. He was seated on a stool, with a paper before him on a piece of plank, writing a vigorous knock-down to an article in the Kickapoo Pioneer, a paper of a rival city. The cooking stove was at his left, and tin kettles all around; the corn cakes was a 'doin,' and instead of scratching his head for an idea, as editors often do, he turned the cake and went ahead."

CAN'T SWALLOW NEGROES WHOLE .- The Wilmington Herald, a staunch Republican paper in Illinois, which has swallowed all the other isms of the party without a bone sticking in its throat, has not the anaconda-like property of gulping down "negro equality," though covered with the saliva of "brudderly feeling and mock philanthropy, previous to deglutition. The editor says: "Whenever negro suffrage becomes one of the planks of the Republican platform, we shall feel free to seek some other political organization, and we think we should find most of our Republican brethren in the same way."

A Singular Being---A Stone Eater. We saw this morning near the depot, a singular specimen of humanity, who was gathering contributions of money from the

spectators, and repaid them by swallowing pebbles. We saw six stones, weighing from one to two ounces each, swallowed successively by this man, and were assured by others, that he had within an hour, swallowed nearly fifty of the same sort. There was no deception in the matter. The man crossed his hands upon his back, and allowed any one of the spectators to drop the stones in his mouth; and each was plainly swallowed. He was content to swallow stones at the rate of two cents a piece, as long as

the spectators would furnish the money.

This singular being is a German of diminutive size, lean, but apparently healthy. A gentleman present, who could converse with him in the German language, gathered from him that he was fifty-four years old, and had been in the habit of swallowing stones since he was eighteen years of age, and earned his living in that way-often swallowing fifty a day. He said he experienced no uneasiness or painful sensation while the stones were in his stomach or intestines, and that they readily passed away with fecal matter. This man should unite the due combination of agriculture and keep- with the one who was about here last fall, ing stock. It is worth a ride to Ludwick, to sticking knives and pins in his flesh, and see his beautiful Durham and Devonshire make up an exhibition of monstrosities.— Rochester Union.

THE WAY THEY GET RICH OUT WEST.—The Newburyport Herald relates the experience of a friend, just returned from the West .-He says:—"Here is the whole story. We complain of hard times, and go West to better our condition. If we would live in a log or mud house with one room and no floor, sleep on straw, go bare footed, wear the cheapest and coarsest clothes, and deprive ourselves of all the comforts of life, anybody might squat upon two acres of common pasture. \*The name was in the original patent of years as upon any half section of land in Kansas; and if there were hundreds thus squatting, they could get up a land fever, speculate in lots, and have the prices go up as they do in the West.

What people save in the new States they crush out of themselves, and that they do anywhere. All the advantage they have, is the privilege of living as mean, and being as mean, and having their children as mean, as human nature will bear, with nobody to find fault with it; while here, living in the same manner, they would separate from the masses, as much as the gipsies do. If any of our people wish to learn practically about this matter, let them take a view of the basket makers who drive into market from New Hampshire, and then go home and live with them a month in the back part of Barrington, and they will be saved the trouble of going to Kansas.

"Pat, which is the way to Boston?" "How did you know my name was Pat?" "O, I guessed it."

Terrible Riots in New York.

Many Killed and Wounded-The Military

Ordered Out—Streets Barricaded. New York, July 4th, midnight.—There was a great deal of drunkenness and disorder in this city on the occasion of the National holiday. The military made a splendid display this morning, and immense throngs of persons witnessed their manœuvres.

Governor King and Mayor Wood reviewed the troops in the Park, and then dined together at General Sandford's.

This morning a very serious riot occurred at a drinking saloon, at No. 40 Bowery. The disturbance first took place at two o'clock this morning. It commenced between a gang of low ruffians from the Five Points, called the Dead Rabbit Club," and a party of the Bowery Boys."

The riot was of the most terrible character. all sorts of weapons and missiles being used, and many persons were injured seriously.-The police finally succeeded in quelling the

riot, and in driving the rioters away.
At seven o'clock this evening the Bowery Boys who were injured in the morning by the 'Dead Rabbits," rallied in great strength for the purpose of revenging the injuries they had received in the morning, and another and a far more terrible riot was the result.

The second riot took place in Bayard street, near Baxter. The police came upon the ground after the riot had been progressing for some time, and upon their arrival they were greeted with a volley of stones, and musket and pistol shots. Several of the officers fell and were carried

off the ground dead or in a dying condition. The policemen suffered dreadfully from the violence of the rioters. The latter then proposed to destroy the

street, but they were foiled in this design. The seventy first regiment was ordered out, and marched to the scene of the riot. The
