TO INVALIDS .- Dr. Hardman, Analytical Physician.—Physician for Diseases of the Lungs, Throat and Heart—Formerly Physician to the CINCINNATI MARINE HOSPITAL, Also to Invalids Retreat, Author of "Letters to Invalids," IS COMING! See following Card. UNTING DON & BROAD TOP RAIL ROAD. SUMMER ARRANGEMENT! R. HARDMAN, Physician for the Ou and after Monday, June 1st, 1857, Two Passenger Trains a day, each way-Sundays excepted-will run as follows: MORNING TRAIN. disease of the Lungs, (formerly Physician to Cincin-Marine Hospital.) will be in attendance at his rooms STATIONS. Pleasant Grove... lifflin, "Patterson House,"... farklesburg... Johnstown... Fishers' Summit... Saxton...... Riddelsburg.. lopewell......Arrive......9.40....Leave p. m. 12.30 EVENING TRAIN. Р. М. ...Leave......5.00.. Huntingdon... Inhalation is based. If the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into the lungs. Medicines are antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells, and tubes which lie out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have heretofore resisted all treatment has been because they have never been approached in a direct manner by medicine. They were intended to act upon the lungs, and yet were applied to the stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutionally, expending their immediate and principal action upon the unoffending stomach, whilst the foul ulcers stitutionally, expending their immediate and principal action upon the unoffending stomach, whilst the foul ulcers within the lungs were unmolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or business of the patient.—In relation to the following diseases, either when complicated with lung affections or excessed. odations are to be had,) and return to Huntingdon same cases, either when complicated with lung affections or existing alone, I also invite consultation, I usually find them day.
