QUITE AN IMPROVEMENT—Gas light in our business places.

Fifteen hundred persons have visited Bedford this Season.

We see it announced that Dr. Jacob Forney, formerly of Water Street, has been appointed by the President,
Superintendent of Indian affairs in Utah. This is the
first we have heard of the Doctor since he left for parts

We passed him some distance above Bloody Run, and from that point to Huntingdon we noticed the woods on fire at several places.— The streams however, along the route, were not on fire-neither is there the least evidence of there having been a conflagration in town occasioned by the arrival or depar-ture of Mr. Wilmot.

Dr. Hardman will be in town on Friday. See advertisement on the Fourth page.

Washington City. Astounding Disclosures Forthcoming.

From what the philadelphia "News" stated last winter, and from what the Chairman of the "straightout" Know Nothing State Committee has lately promised, as we learn from the Bedford "Gazette" of last week, there are some rich developments shortly to be made by the leaders of that faction, as to the stupendous Bribery that was effected by the Fremont leaders last Fall. Over one hundred thousand dollars are said to have been brought into this State at one time and expended by that pink of Black Republican honesty, Tom Ford, of Ohio, and strictly accounted for by that gentleman. This fund, it seems was devoted to the purchase with gold of the Fillmore press of the State, and intended to secure the electoral vote to Fremont, in case the "Union Electoral Ticket" was successful. We await with impatience the promised exposition, as we are rather prone to believe that a neighbor of ours, from the sudden rise that took place in his finances about that time, had his pockets pretty well lined with banknotes, in consideration for ought not to be allowed to compete with nasome special duty that had been, or was thereafter to be performed. SEPTEMBER 1. 1857. MR. EDITOR :- Having had the pleasure of attending a Sabbath School celebration held near McConnellstown on Saturday last, I might be worth a place in your paper; so I seventeen years standing with the Editor .have seated myself for that purpose. The He says: German Reformed and Methodist Sabbath schools united and formed in procession in McConnellstown, about nine o'clock A. M., grove on the bank of Crooked Creek, one mile below town. After some time they were exercises commenced by singing and prayer. Rev. A. B. Still was then introduced to the audience and made an excellent address, parery one present will agree with me in saying that the Rev. gentleman deserves to be as much noted for his ability to amuse and interest children, as for his eloquence and earnestness in the pulpit. The committee of arrangement was then announced, and they proceeded to prepare and arrange the "good things" which were so abundantly provided. The Rev. D. Shoaff entertained the audience with a few well-timed remarks while all things were being made ready. At length they were summoned to the table, and, although there was a large number in attendance, there was enough for all, and several baskets of fragments. Dinner being over, they were allowed to enjoy themselves, rambling through the grove, swinging, &c. Early in the evening, the company was called together and dismissed by singing and prayer, after which they marched in good order back to town. Everything passed off pleasantly, and all seemed to enjoy themselves. One thing about this celebration I was pleased to see-the ministers of four denominations meeting together and joining in the exercise in such harmony. May the day not be far distant when both ministers and people will step over the walls that stand between denomtheir Redeemer. Yours truly.

SPRUCE CREEK August 27. FRIEND LEWIS: - I feel communicative this evening, and since the poet savs

And spoil like bales unopened to the sun," will use my pen and paper as a safety valve, and let off a few thoughts which you may insert or destroy, just as you please. Since the date of my last letter to you I have visited the old homestead; and with feelings which words know nothing of, wandered amid the posed entirely of cast iron, and includes scenes where the happiest years of my life were spent. When I reached my childhood home the sun was just kissing good-bye to it may be taken from the furnace and adjusted the lofty old pines which stand near "the old | upon the road, with less labor and expense house at home." Busy with recollections of than is usually required to lay the ordinary by-gone days, I had almost unconsciously gained the threshold, and could scarcely refrain from rushing in and shouting "home frost and other disturbing causes. The rails again!" But ah! no loved one was there to welcome me home. True the water bubbled up from the bottom of the spring with the low sweet music it did years ago; and the song of the purling brook was as musical as ever, and there too, stood the old near trees. from whose wide-spreading branches I have so often gathered the golden fruit, but the wind sighing through their lofty boughs seem-

The home of the stranger henceforth it must be." As night came stealing along through the shady groves and began to conceal the distant mountains in her sable robes I turned slowly away from those hallowed scenesscenes sacred to memory's shrines.

On Sabbath I accompanied my friends to the place of worship. Here, too, I felt myself a stranger. The venerable man whose constant labor was to

Yet to me the music, though performed in modern style, sounded not half so sweet as the good old fashioned tunes that charmed my ears in the days of childhood; and the truths of the Gospel, though spoken with energy, wanted the attractions they possessed when they fell from the lips of the dear old man I learned to love in my boy-Yours, &c. THE ANXIETY OF WILMOT .- The recent letter of David Wilmot, the Black Republican candidate for Governor, to the Know-Nothings, is a most cringing and imploring document. He begs that party for their support with the fervor of desperation. He puts himself "square" on the proscriptive platform. He is for having all the offices held by "Americans"-in other words, he wants "Americans to rule America." thinks that German and Irish mechanics tive-born workmen. > THE "SECRET" CANCER CURE.—Much has been written about Dr. Fell's secret, now being employed by surgeons at the Middlesex Hospital, London, where the unfortunate American sculptor Crawford is now under treatment for this dread affliction. Dr. Fell's treatment is prescribed in a late medical work

as follows:-"In the first instance, the skin over the tumor is removed by some liquid caustic-nitric acid. The thus exposed tumor is then covered with a layer of an ordinary caustic, chloride of zinc, spread on linen. This creates a superficial slough. This slough is then scored to a certain depth by several incisions of the knife; into these furrows strips of linen covered with the caustic are inserted. In this way the tumor is destroyed still deeper. The incisions are gradually extended in depth inations, and unite in furthering the cause of from time to time, fresh caustic being introduced into them at each dressing, till in this way the whole tumor is seriatim converted into one large eschar, which seperates by a surface of demarcation, according to the or-

dinary principles of surgery." The constitutional treatment which has been affirmed to cradicate from the systems the tendency again to originate cancers, is affirmed by the same authority to consist in the internal administration of iodine of arse-

JUDGES—R. B. PETRIKEN,

Jackson township, August 19, 1857. TMPROVED PATENT ASPIIALTIC ROOFING FELT—A CHEAP, DURABLE AND PER-Second host do., FECTLY WATERPROOF ROOFING—PRICE, THESE CENTS Third best do., PER SQUARE FOOT.
WM. LEWIS, Huntingdon, Agent for Huntingdon county.

This improved Patent Felt makes a Cheap, Durable and Perfectly Waterproof Roofing, for Churches, Chapels, Public Halls, Railroad Stations, Houses. Cottages, Ver-ANDAUS, FARM BUILDINGS, CATTLE and SHEEP SHEDS, and ANDASS, FARM BUILDINGS, CATTLE and SHEFF SHEDS, and every other description of Buildings, in lieu of Tin, Zinc, Shingles, Tiles, Thatch, &c.

It costs only a fraction of a Tin or Shingle Roof and is more durable, as it neither corrodus, cracks, nor Leaks.

It is made of the strongest and most durable materials, and saturated with the best of Asphalte.

It is made up in Rolls, 25 yards long, 32 inches wide, and can be easily applied by any unpracticed person, with a few tacks.

It is invaluable for Lining the Walls of Wooden Houses, Franaries, Barns, &c., as rats or other vermin and insects will not touch it.
IT IS IMPERVIOUS TO WET, and being a NON-CONDUCTOR, counteracts the heat of Summa and the cold of Winter, equalizing the temperature within every building where To the Agriculturist, it makes a cheap and effectual ROOFING, for FARM BUILDINGS and Sueds; a Covering for CORN and HAY HICKS, also a DEFENCE for Sheep during

Corn and HAY MICES, also a Define for Sheep during snow, and in the Yard as a loose covering for Turnips and other Fodder in Winter—the use of this Felt proves a great annual saving to the Farmer.

It is suitable to every climate.

It is light and portable, being in Rolls, and not liable to damage in transportation.

When used under Tin or other Roofing, it forms a smooth body for the metal to lie tightly on, whereby the Tin wears much longer, not corroding beneath; at the same time deadening sound. Also being a non-conductor, it keeps the upper rooms cool in Summer, and being Waterbrook, prevents the Roof from leaking.
