COMMUNICATION.

For the Huntingdon Globe. HUNTINGDON, SEPT. 21, 1857. MR. EDITOR: It was my fortune, to pay a short visit, to-day, to the Huntingdon Female Seminary. I went there, unexpectedly to myself, and entirely so, to the accomplished teacher, (Miss Bigelow) who has charge of it. I was accompanied by one of its patrons, who was equally gratified with myself at the proficiency made by the scholof them entered with the commencement of the present session. The recitations we witnessed, were nothing more than a part of the ordinary, every-day exercises of the school, unaccompanied by any previous preparation on the part of either teacher or scholars, for an exhibition before outsiders.-When we entered the school room, the class in Algebra, was about half through the lesson for the day, and was examined to the end, in the most complicated descriptions of apparently puzzling questions, all of which were correctly solved with but little aid from the teacher. Each young lady was required to repeat or restate the problem to be solved, before commencing the process of solution. An interesting little girl (who only entered a short time since) expressed a fear that she could not solve a particular one propounded to her, and by her expressive looks, begged her teacher to let it pass her. Two short words of encouragement, softly spoken, "try it," fell upon the ear and reached the fluttering heart of the despairing little disciple.-Courage and confidence returned, and she passed through the mazes of the complex proposition in triumph. It was an interesting spectacle, and showed the power and skill of the teacher in bringing into action the mental faculties of those she trains. The exercises of the algebra class were followed by an exhibition of mental arithmetic which equally gratified and astonished my companion and myself. Although we knew something of the merits of the teacher and of the thoroughness with which instruction is imparted by her, in all the departments of learning in which she undertakes to instruct, yet we had no conception (at least I had not that such rapidity, in the process of mental calculation, as we witnessed, under Miss Bigelow's examination of the class, could be achieved, by such juvenile minds. It was obvious, from all we seen and heard, that the results reached in the processes of demonstration were not the transcripts which mere memory unfolded, but were the conclusions of reason, and of the reasoning faculties, brought to bear, with surprising activity, upon the elements of each proposition. Mere memory could never have performed the work. I freely confess, I felt humbled, at the slowness with which my own mind worked, in reference to the questions propounded by the teacher, when compared with the rapid operations of the minds in the youthful bodies before me. And here, let me say to the people of Huntingdon and of Huntingdon county, that they are exceedingly fortunate, in having in their midst, such a school as Miss Bigelow's, in which to have the minds of their daughters trained for the battle of life .-There is no skimming of the surface under her teaching, but every mental faculty is brought into active exercise and strengthened by uso, just as the muscular power is increased by the action of the body. Here you can have your daughters thoroughly instructed in all the solid branches of an English education, and in all that fits woman for the active duties of her position, whatever it may be, and that, too, at but a trifling cost when compared with the expenses of many, yea, many, superficial educations obtained at fashionable boarding schools. I beg leave to state in this connexion a fact, which too much characterizes the history of female education in Pennsylvania. We are too prone to think that a few quarters of instruction (thorough or otherwise) of our daughters, are enough for them, and we withdraw them from school, starting them on the voyage of life, just at a time when their minds have merely passed through the normal state of preparation for the reception of instruction-and just at a time when they are beginning to appreciate its importance. They are suddenly arrested in their career of learning; in their acquisition of knowledge, before they have even reached its portals. This is not justice to them, nor is it justice to the world in which they are to move in after life. It is a trite saying that their children, and they are expected to do sugar and four million gallons of molasses, so, although their own minds have never been subjected to the one-fourth of the training they ought to have received in the susceptibilities and flexibilities of youth. Fathers do not lay this subject sufficiently to heart, and do not properly estimate the responsibilaties which rest upon them, to prepare their daughters for the trials in their pathway in whatever situation fickle fortune may place them. If they are expected to mould the character of men, their own minds must be schooled for the work. Again: Fathers know not what misfortunes await them-nor how soon adversity may compel them to earn their own bread by the labor of their hands if their minds are inadequate to the task .-The rich of to-day are the poor of to-morrow,

which fortune may favor them, to thoroughly educate their daughters according to the means with which a kind Providence has blessed them. The dollars which may be spent now in their proper training may be after years. But I have wandered unintentionally into a chapter on female education, whilst my purpose was merely to notice the character of the school to which I have called your attention as the conductor of a pubars, in the short time which has elapsed lie journal. Visit it and judge for yourself. since the re-opening of the school on the first Do not wait for public examinations, but of an intense affection. Indeed, while he of the current month (September). Several drop in at any time when the school is in session, and you will have more reliable means of judging as to the character of the daily instructions given than any such examinations can afford you.

> MR. EDITOR: -On Friday, the 18th instant, we had the pleasure of attending a grand Sunday School celebration near Marklesburg, a short account of which I purpose giving you. The celebration was held in a beautiful grove, on the farm of Mr. Henry Boyers, about fourth of a mile from the village, and consisted of the pupils, teachers, and others connected with the Salem, Marklesburg, Zion's church, Coffee Run and Branch Sabbath schools. The scholars of all the schools were formed in procession on the green surrounding the Methodist church, and marched to the grove in beautiful order, displaying several tastefully decorated banners, bearing appropriate mottos. In the grove was erected temporary stand and seats for the accommodation of a large number of spectators .-The audience were then called to order by Mr. J. C. Hagey, who made an eloquent prayer. After which Mr. F. Lane, of Huntingdon, was introduced, and delivered a very able address, mainly to the pupils. He was followed by our worthy friend Gen. John Williamson, who was listened to with delight- judges. ed attention by all. There was now displayel under the foliage of the giant oaks, a large table, amply provided with the good things of the season, of which, after the children had been supplied by their teachers, the whole company present were invited to partake.

The company were again called to order about half past one o'clock, when Rev. Mr. Fletcher was called on, followed by Rev. Mr. Bechtel, who both delivered short but pleasing and appropriate addresses. Dr. Wintrode made the concluding remarks, and spoke on that religious truths if properly instilled into the minds of the young must ultimately produce to the recipients a beneficial result.-This concluded the programme for the day, and we now retraced our way homeward .--The pleasing entertainment of the day will long be remembered by W. J. G.

A Literal Runaway Match.

A capitol story is told by a Texas paper of a runaway match that came off in that State: -"It seems that a couple had resolved to get married, notwithstanding the opposition of parents and relatives of every degree; and securing the co-operation of a friendly in the best establishments of the kind, can be had, fresh elergyman, they all three mounted their horses and set out for a friend's mansion, several miles distant, where the rights could be solemnized without interference. They had gone far, however, before their flight was discovered, and then there was as much mounting and racing and chasing as occured on the occasion of "Young Lochiavar's" celebrated elopement with the Netherby maiden. The lovers and their faithful paster soon heard the noise of approaching pursuers, and gave their horses the spur. But alas! their enemies were better mounted and gained fast upon them. It was evident they would soon | lonely and disconsolate; but he will not mourn as one be captured, when a felicitous inspiration of the maiden came to their aid. "Can't you gain in another and a better world. marry us as we run?" she shouted to the clergyman. The idea took, and the pastor at once commenced the ritual. All parties 'covered themselves with glory' and just as the bride's father clutched her bridle rein, the clergyman pronounced the lovers man and wife. When the old gentleman first learned what had been done he was inclined to be furious, but being a gallant old fellow, and admiring a dashing action, he soon concluded to forgive the runaways in consideration of the handsome and novel manner in which they triumphed over him.

THE SUGAR TRADE.—The fall in the value of sugar and molasses has been great within a few weeks past. The losses on the stock on hand must have been many millions of dollars to dealers in this country, and much more to foreign holders. The Boston Trav-

The decline from the highest point is now over 3 cents a pound, and there is strong probability that the bottom is not yet half reached. When the decline had reached only one half the present amount, a few weeks since, the New York Independent esmothers mould the minds and characters of timated that on the stock of 85,000 tons of held in that port alone, the loss was then fully three and a half million dollars. Of course it must be double that now, and if this loss is made on that in New York alone, what must it be on that vast quantity affoat, in store in Europe and in the United States, and the stocks on hand in the sugar exporting countries. It cannot be less than fifty millions of dollars already, and as the tendency is steadily downward, it will probably reach a hundred millions before the dealers will be able to touch the next crop.

A certain facetious acquaintance of ours, was a few days ago, "poking his fun" at the very high and steep hills which give such an air of sublimity to some parts of our county and said that he had seen cultivated fields so precipitous that he had to lie on his back to see to their top! Whereupon he was taken down by another "sharp custom-The rich of to-day are the poor of to-morrow, er," in this style: I was once at a place (said and no times are more illustrative of this Mr.—where the fields were so steep that truth, than the present. Every dictate of the people looked up their chimneys to see duty, then, to country, and of affection for whether the cows were coming home!! We left, wondering what human nature will family, ought to admonish parents, whether "come to" after a while.— Bedford Gamale or female, to lose no opportunity, with zette,

JOYFUL MEETING .- Herr Driesbach, the lion tamer, who a few years ago retired from the menagerie business, and devoted himself to farming in Wisconsin, has lately visited his old companions, the lions, tigers and leopards, at Dubuque, Iowa, where the menworth thousands in the changing chapters of | ageric containing them was stopping. The meeting was quite affecting. The lioness, which was a particular favorite, caught sight of him, and her eyes beamed with pleasure, while her tail wagged a glad recognition.-On his coming up to her she appeared frantic with joy, and when he spoke to her and presented his face to the cage, she kissed him and placed her paw in his hand with the air was in her presence, she could not control herself, but would lick his hands while he attempted to pat her, roll over, reach out her paws to him, and then press her nose between the bars as though she would like to have had a closer presence. The other animals were equally affectionate.

CAUSE OF THE SUICIDE OF SENATOR RUSK .-A gentleman just from Texas has communicated to us facts bearing on the recent melancholy death of Senator Rusk, which throw more light on that sad event than all else concerning it we had previously learned. It seems that he was suffering at the time most grievously from a carbuncle on the back of his neck, which, for sixty days, had baffled the skill of his physician, and bade fair, unless arrested soon, to terminate in his death. He had been suffering intensely from it on the day he committed the fatal act, and it was believed by those surrounding him that the agonies of the disease, added to his belief that it would deprive him of life in less than thirty days, had much to do in bringing about his resolution to make away with himself. Wash. Star.

A FAMILY POISONED.—AUGUSTA, September 20.—On Sunday last, in Pike county, Alabama; thirty seven persons were poisoned, six of whom died shortly after. The act was committed by the negro cook, instigated by a Hungarian named Conuska. Thomas Frazell's grand daughters are the victims to this terrible crime. Others were lying in a critical condition. The negro woman was burned to death, and Conuska was condemned to the same fate by his self constituted:

lay.
Fifty pounds baggage allowed each Passenger. For fur-

ther information inquire at the office of the Company at Huntingdon. THOMAS T. WIERMAN, Supt. Huntingdon, Sept. 9, 1887. IMPROVED PATENT ASPHALTIC ROOFING FELT—A CHEAP, DURABLE AND PER-FECTLY WATERPROOF ROOFING—PRICE, THREE CENTS

PER SQUARE FOOT.
WM. LEWIS, Huntingdon, Agent for Huntingdon county. WM LEWIS, Huntingdon, Agent for Huntingdon county. This improved Patent Felt makes a Cheap, Durable and Perfectly Waterproof Roofing, for Churches, Chapels, Public Halls, Railroad Stations, Houses, Cottages, Verandais, Farm Buildings, Cattle and Sheep Sheds, and every other description of Buildings, in lieu of Tin, Zinc, Shingles, Tiles, Thatch, &c.

It costs only a fraction of a Tin or Shingle Roof and is more durable, as it neither corrodes, cracks nor leaks.

It is made of the strongest and most durable materials, and saturated with the beat of Asphalte.

It is made up in Rolls, 25 yards long, 32 inches wide, and can be easily applied by any unpracticed person, with a few tacks.

It is invaluable for LINING the WALLS of WOODEN HOUSES. will not touch it.

It is Impervious to wet, and being a non-conductor, counteracts the heat of Summer and the cold of Winter, equalizing the temperature within every building where

To the Agriculturist, it makes a CHEAP and EFFECTUAL To the Agriculturist, it makes a chear and arrange and Roofing, for Farm Buildings and Sheds; a Covering for Corn and Har Hicks, also a Defence for Sheep during snow, and in the Yard as a loose covering for Turnips and other Fodder in Winter—the use of this Felt proves a great

annual saving to the Farmer.

It is suitable to every climate.

It is light and portable, being in Rolls, and not liable to damage in transportation.

When used UNDER TIN or other ROOFING, it forms a smooth body for the metal to lie tightly on, whereby the Tin wears much longer, not corroding beneath; at the same time deadening Sound. Also being a non-conductor, it keeps the upper moons cool in Summer, and being Water-

PROOF, prevents the Roof from LEAKING. August 19, 1857. TO MECHANICS, INVENTORS, AND MANUFACTURERS.

In announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer ONE THOUSAND FIVE HUNDRED DOLLARS IN CASH PREMIUMS for the fifteen largest lists of subscribers sent in by the 1st of January, 1838; said premiums to be distributed as follows:—

follows:— use the follows:— sate premiums to distribute as follows:— For the largest list, \$300; 2d, \$250; 3d. \$200; 4th, \$150; 5th, \$100; 6th, \$90; 7th, \$80; 8th, \$70; 9th, \$60; 10th \$50; 11th, \$40; 12th, \$35; 13th, \$30; 14th, \$20; 16th, \$20.

Names of subscribers can be sent in at different times and from different Post Offices. The cash will be paid to the orders of the successful competitors, immediately after the 1st of January, 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit 26 cents extra on each year's subscription to pre-pay postage.

TERMS OF SUBSCRIPTION.—Two dollars a Year, or

TERMS OF SUBSCRIPTION.—Two dollars a Year, or One bollar for Six Months.

CLUB RATES.—Five Copies, for Six Months, \$4; Five Copies, for Twelve Months, \$8; Ten Copies, for Six Months, \$8; Ten Copies, for Six Months, \$5; Ten Copies, for Twelve Months, \$25.

**For all Clubs of Twenty and over, the yearly subscription is only \$1 40.

The new volume will be printed upon fine paper with new type.

The general character of the Scientific American is well known and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various Mechanical and Chemical Arts. Manufactures, Agriculture Retained and Chemical Miss, Invitations, Inventions, Engineering, Mill Work, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 finely executed Engravings, and Notices of American and European Improve-ments, together with an Official List of American Patent Claims published weekly in advance of all other papers. It is the aim of the Editors of the Scientific American to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combating and exposing fulse theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopædia of Useful and Enter-

American is a reliable.

TO INVALIDS.—Dr. Hardman, Analytical Physician.—Physician for Diseases of the Lungs, Throat and Heart—Formerly Physician to the CINCINNATI MARINE HOSPITAL,

Also to Invalids Retreat, Anthor of "Letters to Invalids,"
IS COMING! See following Card. R. HARDMAN, Physician for the

disease of the Lungs, (formerly Physician to Cincin-lati Marine Hospital,) will be in attendance at his rooms Huntingdon, "Jackson's Hotel," Saturday, October 10. Indiana..

Dr. Hardman treats Consumption, Bronchitis, Asthma, Larryngittis and all diseases of the throat and lungs, by Medical Inhalation, lately used in the Bromton Hospital, London. The great point in the treatment of all human maladies, is to get at the disease in the direct manner.—All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into the lungs. Medicines are antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells, and tubes which lie out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have never been approached in a direct manner by medicine. They were intended to act upon the lungs, and yet were applied to the stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutes and year, and in the property of the stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutes of the property of Dr. Hardman treats Consumption, Bronchitis, Asthma, stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutionally, expending their immediate and principal action upon the unoffending stomach, whilst the foul ulcers within the lungs were unmolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or

business of the patient.

Other Discuses Treated.—In relation to the following diseases, either when complicated with lung affections or existing alone, I also invite consultation, I usually find them promptly curable.
Prolapsus and all other forms of Female Complaints, Irregularities and Weakness.
Palpitation and all other forms of Heart Disease, Liver regularities and Wakness. Palpitation and all other forms of Heart Disease, Liver Complaints, Dyspepsia, and all other diseases of stomach

ind howels, &c.
All diseases of the eye and ear. Neuralgia, Epilepsy, All diseases of the eye and all forms of nervous disease.
S. D. HARDMAN, M. D.

COMMITTEE TO SOLICIT SUBSCRIPTIONS—JOHN Scott, A. W. Benedict, Graffus Miller. Huntingdon, June 24, 1857.

SADDLE, HARNESS, AND TRUNK MANUFACTORY.—J. B. LONG, would inform the public in general, that he has commenced the above business in Alexandria, where he intends to keep constantly on hand, and manufacture to order, all kinds of Saddles, Harness, Trunks, &c., which he will sell as low as can be bought in the country. Also, Buggys trimmed, and all kinds of Upholstering done in the neatest style.

Alexandria, August 26, 1857.

TERY SUPERIOR LIME.—Persons desiring a very superior white lime can now obtain it of the subscriber, as he has just put into operation, a large draw kiln, built upon an improved plan, and produ-cing daily, large quantities of the very best quality. With cing dually, ange quantities of the very less quanty. With facilities unsurpassed, and limestone pure as any found in the State, he feels confident that he can render complete satisfaction to those who give him a call. The attention of Builders, Farmers, and all wishing to buy Lime, is respectfully invited, as well to his low rates, as to the quality of his lime.

DIANOS, MELODEONS & MUSIC PRICES GREATLY REDUCED!! HORACE WATERS, 233 BROADWAY, NEW YORK, AGENT FOR THE SALE OF THE BEST BOSTON & NEW YORK PIANGS & MELODEONS.

THE LARGEST ASSORTMENT OF MUSIC MERCHANDISE IN THE UNITED STATES. Planos from five different Manufactures, of every variety of style—from those in plain resewood cases, for \$200, to those of the most elegant finish, for \$1000. No House in the Union can come in competition for the number, variety and celebrity of its instruments, nor extremely low prices at which they are sold.

ces at which they are sold.

HORACE WATERS' MODERN IMPROVED PIANOS, with or without iron frames, have, in their new scale and improved action, a power and compass of tone equalling the grand, with the beauty and durability of the square piano. The Press and first Music Masters have justly pronounced them equal if not superior to any other make.—They are quaranteed to stand the action of every climate.

HORACE WATERS' MELODEONS (tuned the equal temperament), superior in each desirable quality—can also furnish Melodeons of all other makers. Prices from \$42 to \$125; for two sets of reeds, 150; two banks of keys, \$200: Organ pedal bass melodoons, \$275 and \$300. to \$125; for two sets of reeds, 150; two banks of keys, \$200; Organ pedal bass melodoons, \$275 and \$300.

MUSIC.—One of the largest and best catalogues of Music now published; sold at greatly reduced prices.—Music sent to wherever ordered, post-paid. Personal attention paid to all orders received by mail. Second-hand Pianos taken in exchange for new. Catalogues sent by mail. Great inducements offered to agents to sell the above. A liberal discount to dealers, teachers, seminaries and clerrymen.

Each Instrument guaranteed to give satisfaction, or purchase-money refunded. SECOND-HAND PIANOS AT GREAT BARGAINS constantly in store; prices from \$30

"The Horace Waters' Pianos are known as among the very best. We are enabled to speak of these instruments with some degree of confidence, from personal knowledge of their excellent tone and durable quality."—N. Y. Evan-

TESTIMONIALS FROM PROFESSORS AND OPINIONS

OF THE PRESS.

Having inspected a lage number of the Horace Waters' Pianos we can speak of their merits, from personal knowledge, as being of the very best quality."—Caristain Intelligible 1988.

edge, as being of the very best quality."—Caristain Intelligencer.

Nothing at the State Fair displayed greater excellence in any department than the Piano-Forte manufactured by Horace Waters, of this city.—Churchman.

The following is taken from the "Christian Inquirer": "The finest among the many pianos at the Crystal Palace are those placed there by Horace Waters, whose instruments are always popular.

The following we take from the "Christian Advocate" (Memphis, Tenn.) "The Horace Waters, Pianos are built of the best and most thoroughly seasoned material. From all we can learn of this establishment—said to be the largest in the United States—we have no doubt that buyers can do as well, perhaps better, at this than at any other house in the Union."

"Mr. Waters has been long established and is favorably known. We speak from experience when we assure our readers that his prices are below those usually charged for articles in his line."—Jacksonian, N. J.

"Your instruments are a sensible improvement upon

"Your instruments are a sensible improvement upon American Pionos, and an honor to the skilful manufacturer. There is no doubt but they will be appreciated by the pul-lic and all admirers of true merit.—Oscar Cometiant.

lic and all admirers of true merit.—Oscar Comettant.

The treble is clear, pure, powerful, and very melodious, the base is deep, rolling, and sonorous: the middlepart is rich, and sympathetic, and possessing the power of singing, i. e. of uniting the sound of each tone, in a degree but rarely achieved."—Henry C. Watson.

For power of tone, depthof brass, and brilliancy of treble, together with accuracy of touch, they are equal to any make I am acquainted with, and I cordially recommend them to those wishing to purchase.—V. C. Taylor.

"Our friends will find at Mr. Waters' store the very best asortment of music and of pianos to be found in the United States, and we urge our southern and western friends to give him a call whenever they go to New York."

—Graham's Magazine.

"We consider them worthy of special attention, from the resonant and exceedingly musical tone which Mr. Waters has succeeded in attaining."—N. Y. Musical World and

Times.
"There is one which, for beauty of finish and richness and brilliancy of tone, equals. if it does not excel, anything of the kind we have even seen. It is from the estab thing of the kind we have even seen. It is from the establishment of Horace Waters. Being constructed of the best and most thoroughly seasoned material, and upon improved principles, it is capable of resisting the action of the climate and of standing a long time in tune.—Savannah Republican, Savannah, Ga."

Waters' pianos and melodeons challenge comparison waters' pianos and melodeons challenge comparison.

with the finest made anywhere in the country." Journal.
C. L. Sholes, editor of the Kenocha "Tribune and Tele-

graph" says, "The piano was received in good order, and is pronounced an excellent instrument by good judges, the tone of it is particularly commended, as is indeed its external workmanship and finish, compared with its cost." Speaking of the Horace Waters' Pianos and Melodeons "A number of these pianos and pedal bass organ melodeons, from their great power, and fullness and richness of tone, attract the very general attention and commendation of visitors. Waters' "New Scale" is recognized by artists as not only a sensible but important improvem in pianos."
The "New York Express" says: "The Horace Waters' and decidedly

The "New York Express" says: "The Horace Waters' Pianos are pronounced by musical amateurs as a decidedly superior article in all the requisites of this instrument, and it is fast superseding those of other manufacturers." The "New York Evening Post" says: "The Horaco Waters' Pianos are excellent as well as cheap; but he has those of other makers, as well as second-hand ones, capitally adapted to limited means."

Says the "Knoxville (Tenn.) Standard:" "Mr. Waters has long expressions in the business and has grained a remehas long experience in the business, and has gained a repu

has long experience in the business, and has gained a reputation unsurpassed for selling the best instruments in the country."

The "Sunny South" reaches us with the following:—
"This gentleman is one of the most extensive nusic-dealers in the Union. His pianos and melodeons have obtained great celebrity for their excellent tone and durable quality."

Says the "Valley City Advocate:" "We have taken a look at a piano which has just arrived from the celebrated establishment of Horace Waters, and must say that for tone and beauty of finish, it surpasses any we ever saw for the price."

tone and beauty of limsh, it surpasses any we ever saw for the price."

Horace Waters' Piano-Fortes are of full, rich, and even tone, and powerful.—New York Musical Review.

"They are fully equal to any of the kind I have seen in the United States, and far superior to those of a similar make I saw in England."—Geo. Washbourne Morgan.

"I take great pleasure in announcing them instruments of a superior quality, both in tone and touch."—August of a superior quality, both in tone and touch."-August

We don't know that we over saw better pianos—pianos better made, of finer tone and of greater power—than we met with yesterday at the fair in the Crystal Palace. The finest among them are those placed there by Horace Waters, whose pianos are always popular."—Times and Messenger.
"The Horace Waters' Pianos now on exhibition at the

"The Horace Waters' Pianos now on exhibition at the Fair, have attracted a surprising degree of attention; they are unrivalled by any other instrument, in perfect quality of tone and power."—Courier.

"The Horace Waters' Pianos are among the most celebrated and improved makes of the day. For power, brilliancy and richness of tone, elasticity of touch, and beauty of finish, they will not suffer in comparison with those of any other manufacturer."—Thomas Bake?

The "State Register" contains the following: "For beauty of finish, sweetness and brilliancy of tone, they undoubtedly surpass anything of the kind ever brought before the public. They equal in tone the grand piano; and being constructed of the best and most thoroughly seasoned material, they are capable of resisting the action of any climate."

of any climate."

Says the "Evening Mirror": They (the Horace Waters' Pianos) are very superior instruments and the maker may confidently challenge comparison with any other manufacturer in the country, as regards their outward elegance, and quality of tone and power."

18.2. P. BRUNKER is agent for the sale of these Pianes, for Huntingdon county. He will attend to the unpacking and putting up of them, and keeping them in tune, for a year, free of charge. He will also see that every purchaser is satisfied. They will be sold as low as any other Pianes in the United States. Pianos in the United States.
